# SURF GATE

*SURF GATE* revolutionized the wakesurfing world when it was introduced by Malibu Boats in 2012. This innovative feature is now available on all Axis Wake models.

This patented technology allows the driver to generate the perfect wave frontside or backside at the flip of a switch. It's almost too easy.

Easily transition between wakesurfing and wakeboarding without having to shift riders around, moving sacks, or worrying about weight distribution. *SURF GATE* makes it effortless so you can focus on surfing, not weighting.

# FLY THROUGH THE WATER

Feel yourself boost off the wake with a hull design that delivers the perfect lip for riders of all levels, including BR0stock champion, Randall Harris. Never worry about a bad pull, with a sleek dash and control panel giving you the perfect pull every time. At 22 feet long, this boat also offers plenty of room for those next-in-line for the water.

**"The Axis A22 delivers everything I want in a boat. It provides me with a mammoth sized wake with a great shape and pop that I desire, an unreal amount of interior room, and a sleek, modern design. To make things even better, the speed control, ballast, The Wedge and SURF GATE are the easiest to use. This boat is the definition of "bang for your buck" in the wakeboard and wakesurfing world." - TOM FOOSHEE/AXIS TEAM RIDER**
