A large, curved, reddish-brown rock formation dominates the left and center of the frame. The rock has a textured, layered appearance with some vertical fissures. At the base of the rock, there is a body of water. A small white boat with a black canopy is visible in the water on the right side. The sky is a clear, bright blue. The overall scene is a natural landscape with a boat in the foreground.

**malibu boats.**

two thousand five

***At Malibu, we have never had it in us to follow. That's why we have blazed new trails on our own and built a reputation at the top of the water sports industry. We're not just at the top in sales, we're at the top in innovative contributions.***

Our original mission statement has stood in good stead: "Build the best boat and have fun doing it." We continue to adhere to that mission, which is why creativity is encouraged, retail customers are welcomed to our factories, and our company is employee-owned. We realized a long time ago that innovation comes from interest and enthusiasm. Embracing these traits has led Malibu to win 11 Boat of the Year awards, 12 Product Excellence Awards and file three U.S. Patents along the way to our success. Did we mention the 11 World Record performances set behind our boats?

Read on. Find out why Malibu's commitment to design innovation, quality and customer relations leads to an exceptional company with exceptional products.

Malibu Boats, a step beyond.

“

”

# ahhhh.

THE ELEMENTS OF EXCELLENCE

***It's easy to get the big things right. The difference lies in the details. For Malibu Boats that means design based on the intricacies of ergonomics and comfort. In 2005 our attention to these details has expanded exponentially.***

***We have pushed our interiors a step beyond. Malibu dashes are not just a standard feature anymore, they are a showcase detail. Individually hand-wrapped and available in 12 color combinations, the 2005 dashes are a style statement. The passenger side dash in the 21.5 footers has been built up, hand-wrapped and hollowed out to house a huge 1.5 cubic foot locking storage cubby complete with a 12-volt power point and a slip-less rubber mat. We have thought of everything.***

**one.** The new standard flip-up bolster seat elevates the driver to a new vantage point, increases visibility and removes all doubt when obstacles come into question on the water. Safety is always foremost in our minds.

**two.** Our new billet dash insert is machined from a solid piece of aluminum, then chromed. Now standard in all Wakesetter series models, it is a shining demonstration of the level of refinement to which Malibu has ascended with the 2005 model line up. It may seem like just a small detail, but at Malibu superior craftsmanship knows no boundaries.

## STRENGTH. IT COMES FROM WITHIN.

A fine exterior is only half the story of an exceptional boat. It's only complete when what doesn't show equals the quality of what does. In the case of Malibu Boats, what you don't see is the patented Fiberglass Engine Chassis System (FibECS). FibECS is chemically bonded to the interior of the hull at a molecular level with Weld-On®, to achieve unibody construction. The engine is through-bolted, not tap mounted, directly to FibECS at eight separate attachment points to insure level, vibration-free engine operation and to disperse load equally over a greater area. We refuse to compromise the structural integrity of your boat. FibECS also uses active air induction to funnel clean, cool air to the engine for increased performance. It shelters the boat's wiring looms from the extremes of a marine environment. Proven innovations like this have made Malibu Boats the number one tow boat manufacturer in the world with zero failures of more than 24,000 FibECS reinforced Malibu boats in operation today.

Our close working relationship with Medallion Instrumentation has allowed Malibu Boats to produce one of the most visible and accurate gauge clusters in the industry. Measuring 5 inches in diameter, these Malibu/Medallion gauges are servo-driven for extreme accuracy and constructed to stand the test of time. Encased with a stylish chrome bezel these eye-catching gauges supply up-to-the-second information.

**Medallion Gauges.**

#### Malibu Sound Suppression Technology.

Walk softly and carry a big stick. Or drive a well-constructed boat. Silence denotes precision and with precision comes power. Malibu boats are classified as strong silent types thanks to the high caliber of their components. Our exclusive Malibu Sound Suppression Technology (MSST) lines the laminate of almost every Malibu model and eliminates prop thrust vibration and drive train noise. Our Space Age Composite Flooring System is engineered for longevity as well as noise restraint. Paired with the Fiberglass Engine Chassis System (FibECS) the Space Age Floor plays its part in unibody construction and adds even more rigidity to a Malibu boat. You also won't hear a peep from mechanical fasteners working loose in a Malibu. Deck and hulls are blueprinted for an exact fit and then welded together with WeldOn®, the leader in marine structural bonding.

We are not willing to relinquish control over the design and construction of signature elements. Malibu's patented swivel-head pylon, like many other key Malibu parts, is built in house by Malibu employee-owners to guarantee reliability and improve production efficiency. Tested to resist up to 2,000 pounds of pull, the swivel-head pylon extends the life of your rope by swiveling with the slalom skier at the command of a dual

# CORE power

EVERY MALIBU BOAT IS PRIMED FOR PEAK PERFORMANCE RIGHT OFF THE FACTORY FLOOR WITH A CUSTOM CALIBRATED INDMAR ENGINE. BUILT TO EXCEED THE HIGHEST INDUSTRY BENCHMARKS FOR HORSE POWER AND TORQUE, EACH ENGINE IS RIGOROUSLY TESTED ON A DYNO, BEFORE IT IS INSTALLED. THESE TESTS VERIFY CALIBRATION AND PUSH THE ENGINE TO THE LEVELS REQUIRED OF THE WORLD'S TOP PERFORMING WATER SPORTS TOW BOAT.

**one.** The **320 LCR** (320 HP) is the new multi-port fuel injected standard in Malibu's engine line-up. Malibu standard "core" power. With 320 horses and 375 foot-pounds of torque, its core is the latest Delphi ECM (engine computer module) running the latest software, all custom-calibrated by Indmar. The 320 LCR is programmed to deliver the power, low speeds and idles wait, plus the classic turn-key starts, unhesitating dependability and fuel efficiency that only Indmar's MPI can deliver. This engine offers Vortec's high-flow cylinder heads with straighter intake ports for more power, and roller valve trains for reduced friction and improved performance. Like all Indmar engines, it is built for the long run.

**two.** The **Monsoon 340** (340 HP) delivers out of the hose power with 390 foot-pounds of torque. This muscular machine is a customized version of GM's Vortec 5700 and is specifically designed to push Malibu's performance limits. The Indmar ETX one-piece tuned exhaust manifolds prove this point. Match that with the high-lift roller cam and free-breathing Vortec heads and you have one of the most powerful, dependable small blocks ever built. Operating under the precise control of an Indmar custom calibrated ECM, Monsoon 340 delivers a tall, broad power curve that meets the demands of discriminating water sports competitors.

**three.** The New **Hammerhead 383** (400 HP) is a "stroker" engine and the most powerful 5.7L small-block V8 ever developed for inboard use. When the hammer falls this engine cranks out 400 horse power and 420 foot-pounds of torque. Capped with Malibu's exclusive intake plenum, the new Hammerhead sports Indmar's high-flow multi-port induction system, GM's famed FastBurn aluminum heads and an aggressive Indmar-spec cam combined with 1.6:1 roller rockers for less friction, more power. Add Indmar's ETX performance exhaust manifolds along with Indmar's custom ECM calibration and you can't lose.

**four.** The **Malibu Corvette LS1** (375 HP) is the first-ever marinization of the aluminum Gen III GM engine types. A Malibu/Indmar collaborative development, it delivers 9% more overall power than the automotive version, thanks to Indmar's proprietary ECM calibration and its unique T-Y, dyno-tuned exhaust system that virtually eliminates backpressure. The Malibu Corvette LS1 puts out 325 horses and 390 foot-pounds of torque with a tall and broad power band. This aluminum engine is fuel efficient, low in mass and offers the efficiency of closed cooling.

**five.** The **Vortec 6100** (425 HP) is the "baddest" boy on the block—big block that is. Its 416 cubic-inch stature houses as much as 450 horse power and 525 foot-pounds of torque. 9.1:1 high-compression Vortec heads turn out more usable power from every fuel charge with their straight flowing matched port design. The MPFI aluminum intake manifold bolsters cylinder-to-cylinder airflow distribution to achieve cleaner, more dependable combustion. Finely tuned plenum runners and the coil-near-plug ignition system (distributorless) enhance the already massive low-end torque, while delivering awesome power to top-end.

**Indmar**  
POWERED BY GM

**Monsoon 340**

**Hammerhead 383**

**CORVETTE LS1**

**and put us at the top tier of the water sports industry.**

Our desire for powerfully versatile water sports performance has led to industry-first innovations like the Wedge and a new, patent-pending, Adjustable Rudder. Our search for accurate on-demand information ignited the development of Malibu's Ballast Monitoring System (BMS) to give professionals and aspiring pros

the tools they need to push their abilities. Precisely machined CNC propellers and laser-straight Gorilla tracking fins join the list of Malibu's performance-enhancing originality. All this performs at the command of Indmar Marine Engines, the power behind 10 of the past 13 "Tow Boat of the Year" awards.

#### **Ballast Monitoring System.**

Malibu, in partnership with Metallion Instrumentation, has developed a new Ballast Monitoring System (BMS), standard in Wakesetter VLX, Wakesetter LSV and Wakesetter 23XTL. The BMS extends the benefit of the Malibu Launch System (MLS). Ballast tanks are measured in quarter tank increments and can be monitored on the LCD display in the speedometer. With as much as 1,250 lbs of ballast to keep track of, Malibu has introduced an in-dash Ballast Monitoring System (BMS) to allow riders to fine tune the placement of weight in each area of the boat. Riders agree, this type of detailed system information is invaluable and the first of its kind in the water sports industry.

Gorilla Fins were designed for Malibu's powerful line of V-drive boats. These monstrous 120 square-inch fins plunge deep into the water beneath the boat and offer an oversized surface area to allow a level of tracking and handling only matched by Direct-Drive boats. The sheer size and design of these fins steadies the boat and creates a rock solid center pivot point, thereby improving turning radius and overall maneuverability even with a rider cutting hard behind the boat.

#### **Gorilla Fins.**

*the all-new*

## **adjustable RUDDER**

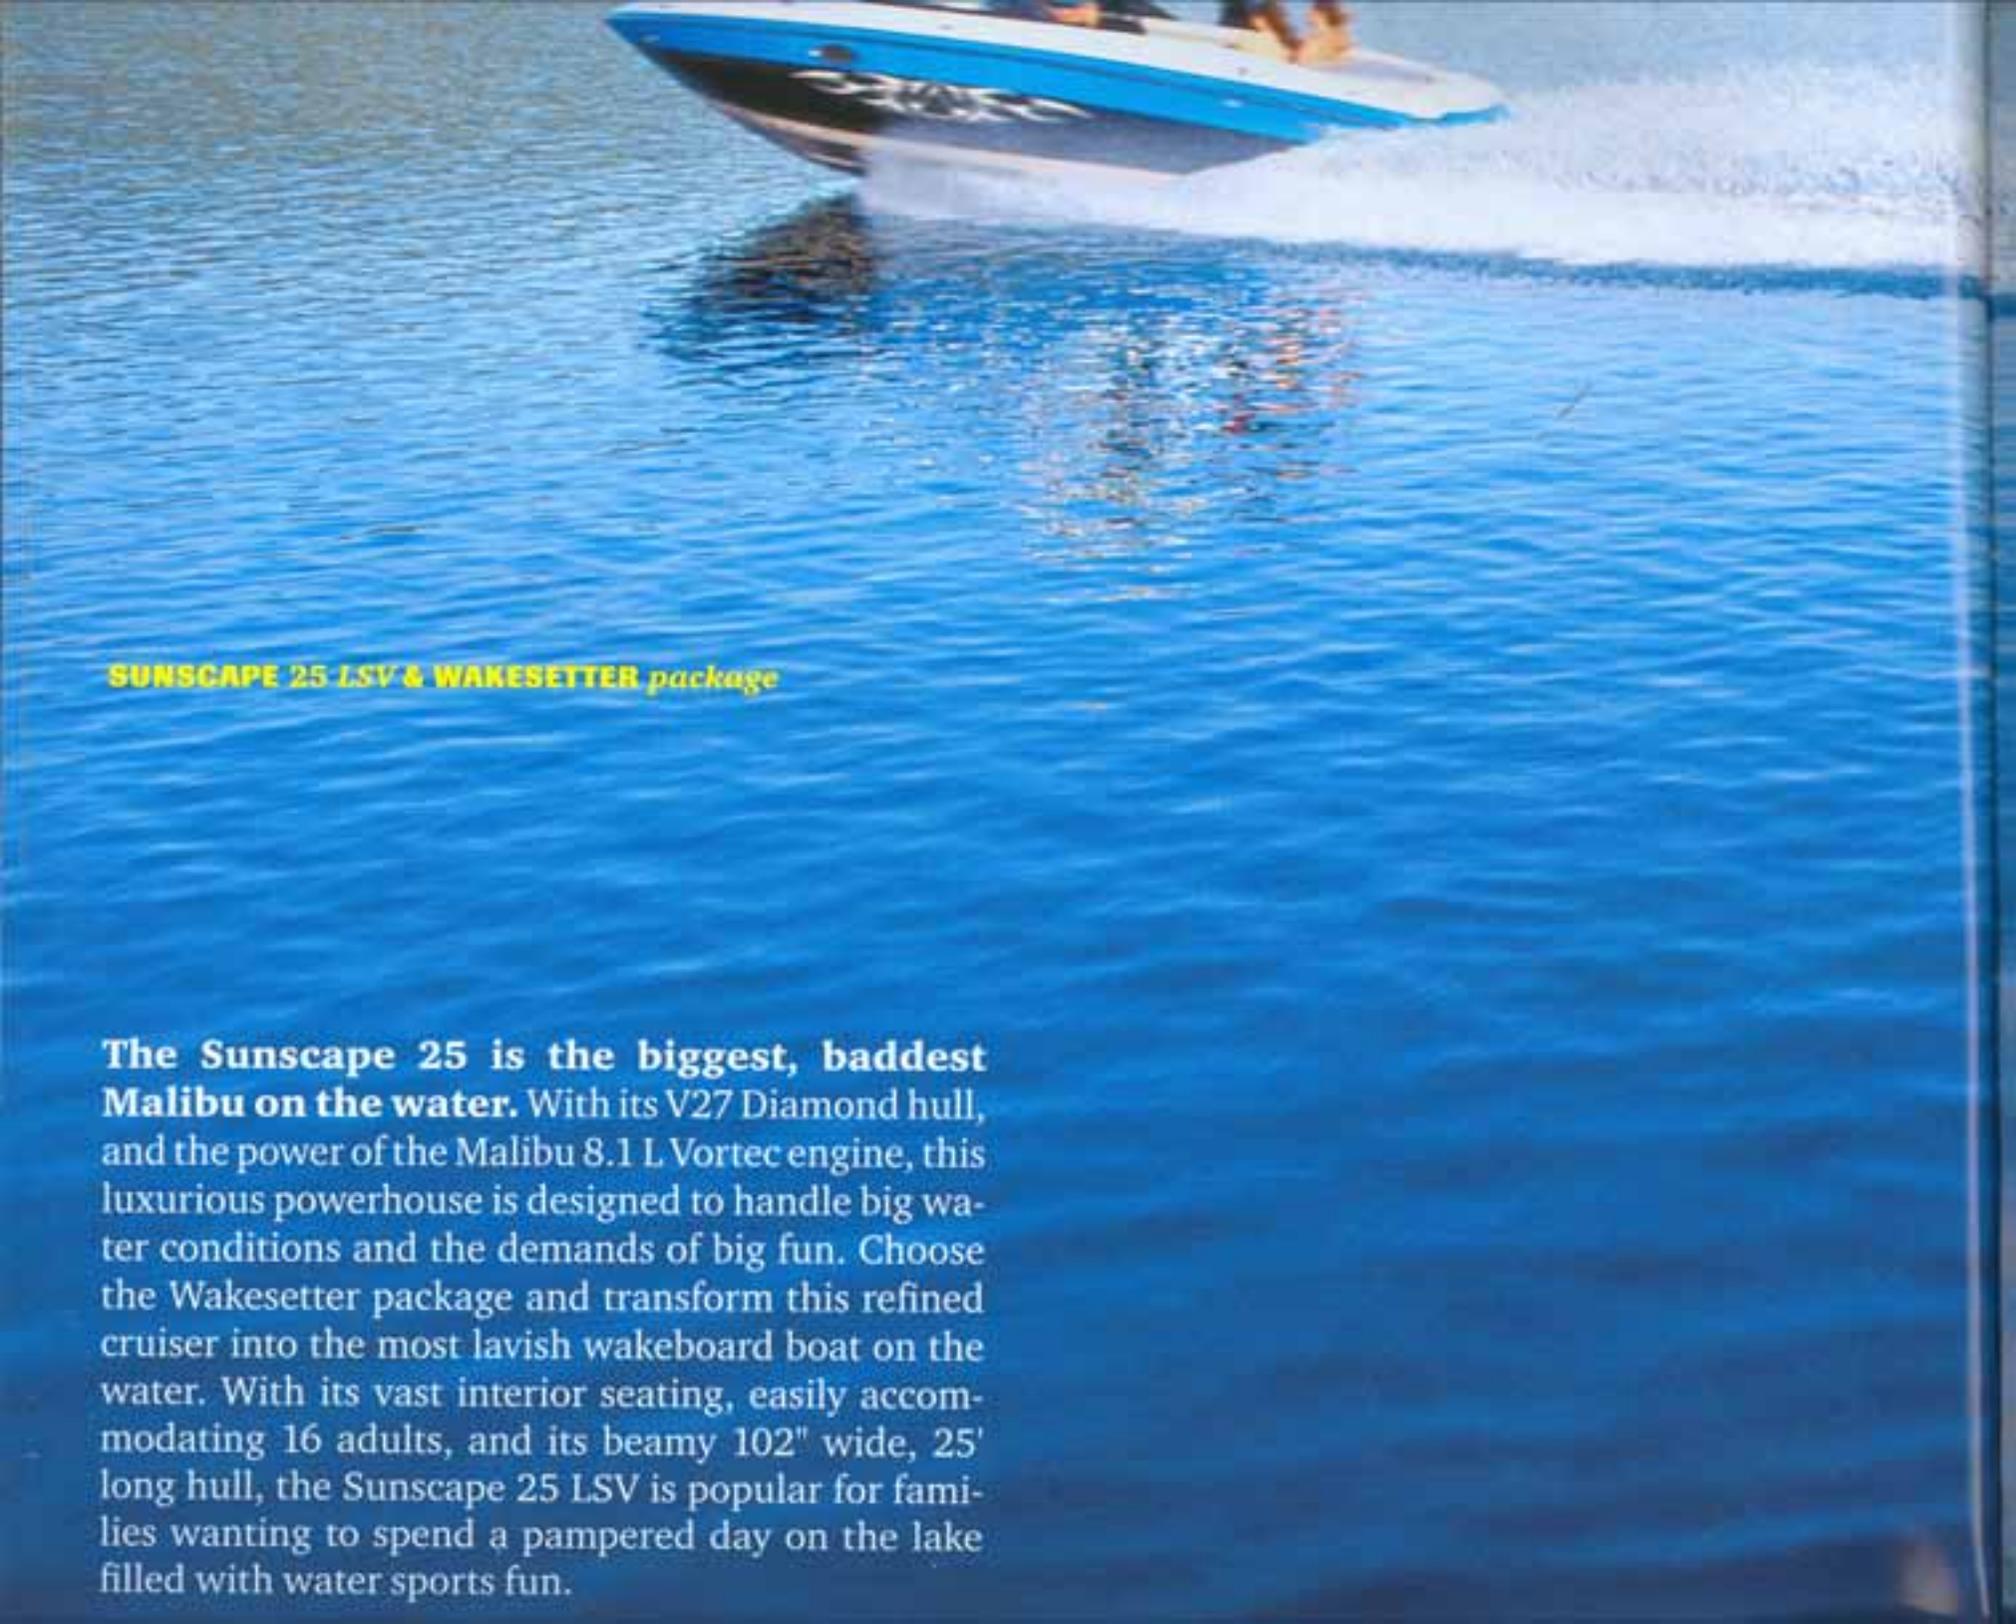

Find control exactly the way you want it with Malibu's new Adjustable Rudder. It is a versatile innovation for those who are serious about their slalom, but do not want to sacrifice a finger-tip controlled leisurely cruise. Exclusive to Malibu, this adjustable load rudder is standard on all models and can be adjusted with the quick turn of an Allen screw. Set it to neutral for a "no load" day of wakeboarding and running the lake. When it is time to run the course, customize the load in either direction for the perfect pull.

#### **The Wedge.**

Malibu's exclusive hydrofoil technology, the Wedge, is more convenient to use than portable ballast for hull displacement, and safer. Creating approximately 1000-pounds of down force on-demand, the Wedge has played a pivotal part in securing Malibu four of the last five "Towboat of the Year" awards. Recognized as "Impact Design of the Year" by one wakeboarding magazine, the Wedge increases the wake without adding weight, without exceeding your boat's weight capacity limits and without a significant decrease in handling. Naturally, the

**SUNSCAPE 25 LSV & WAKESSETTER package**

**The Sunscape 25 is the biggest, baddest Malibu on the water.** With its V27 Diamond hull, and the power of the Malibu 8.1 L Vortec engine, this luxurious powerhouse is designed to handle big water conditions and the demands of big fun. Choose the Wakesetter package and transform this refined cruiser into the most lavish wakeboard boat on the water. With its vast interior seating, easily accommodating 16 adults, and its beamy 102" wide, 25' long hull, the Sunscape 25 LSV is popular for families wanting to spend a pampered day on the lake filled with water sports fun.

# and refuge from the ordinary

The Sunscape 25 is designed to keep everyone aboard comfortable even on a rough day on big water, with **room enough to stretch your legs** as well as ample space to keep gear safely stowed when not in use. Pick your personality. This boat easily converts to a powerful Wakesetter perfect for expression sessions and all out fun.

**one.** Big enough to accommodate all of the gear you can carry, the 25 LSV's rear storage can be accessed in two convenient ways, through a locking hatch in the rear sun deck or with the flip of a switch at the dash. The dash switch sets a hydraulic ram into motion that raises the entire rear seating and sun deck area. Convenience is the key.

**two.** The Sunscape offers 34 cubic feet of bow seating, the largest bow available from Malibu, and swivel seating for observers as well as the driver. An optional, onboard, pump out Port-O-Potty and an enormous 80 gallon fuel capacity mean you can take the Sunscape 25 out for the day and not be concerned about returning to the dock before you're ready.

**three.** Both versions include the extra touches, such as premium snap-in Berber carpet, built-in Malibu Sound Suppression Technology (MSST) for a quieter ride, standard six-speaker Sony stereo, oversize cup holders, removable rear lounge table and much, more. This boat is for big dreamers who expect their dreams to come true.

**It's been called the best performance wake-maker in the history of the sport.**

The Wakesetter LSV rides smoothly on the Malibu V25 Wake Hull, a design that has been digitally shaped and shaved to achieve optimal wakeboard performance and maneuverability. The result is a

ride endorsed by pros everywhere and sought by aspiring pros and diehard recreational enthusiasts who want only the best ride on the water. Designed for hardcore wakeboarding, the LSV also lives up to its Malibu heritage by incorporating maximum comfort and luxury into its personality.

**1,250**  
lbs. of ballast standard

## A WAKEBOARD BOAT THAT SMOOTHS THE ROUGH EDGES

**With more stock ballast than any boat ever built, and a new, in-dash ballast monitoring system,** the Wakesetter LSV enables riders to fine tune the placement of weight in four ballast areas of the boat. The hidden ballast tanks do not interfere with either equipment

storage or passenger space and comfort. The bow tank holds 350 pounds, the mid-ship tank has the capacity to swell to 500 pounds and the two rear tanks, hidden beneath the floor of the rear storage area, offer 200 pounds each. That's 1,250 pounds of ballast standard.

WAKESETTER LSV

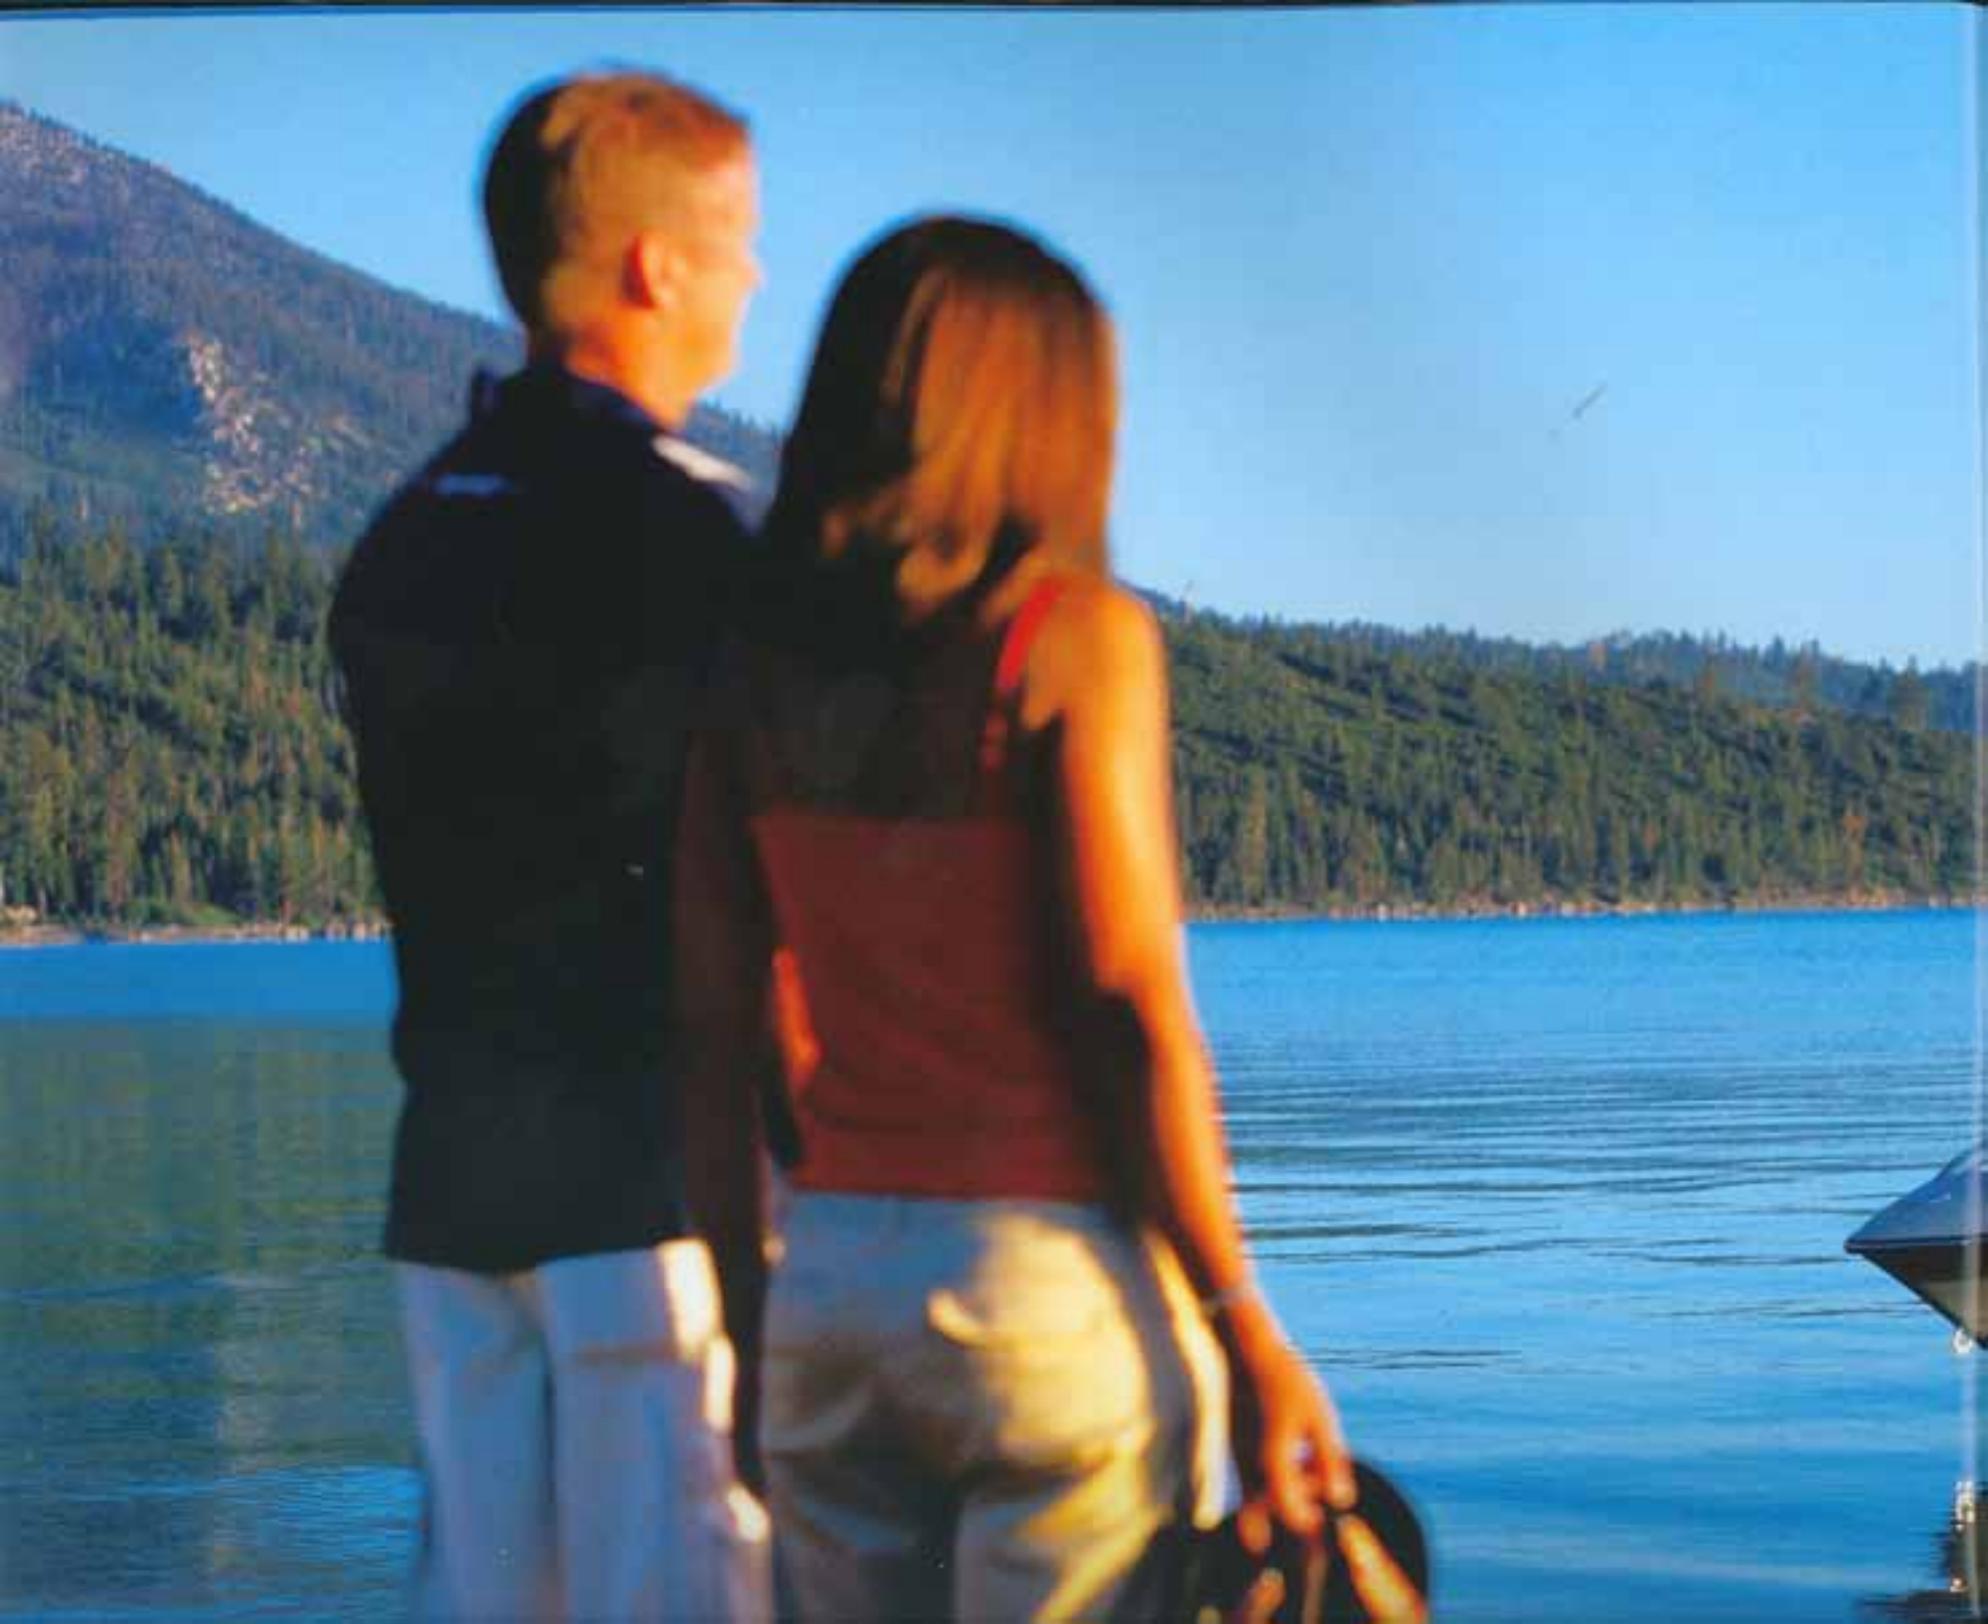

two.

three.

one. Malibu asks a lot of big wake apparatus and the new optional CPT Blade Tower delivers. Our designers joined aerospace composite engineers to construct the industry's first carbon graphite wakeboard tower. Known for its incredible strength-to-weight ratio, carbon fiber has been enabling participants to push the limits of extreme sport for years. Malibu delivers the advantage of this technology to extreme water sports along with a set of four 6" X 9" Sony Xplode speakers and a set of two racks, standard.

Setting the standard for the Sport V class, the Sunscape 23 LSV provides a ride so comfortable you may not want to extract yourself from the cushy interior. But if you do, you will be pleased to know this 23 foot luxury boat offers advanced slalom wakes and exceptional tracking thanks to the Gorilla Fins – 120 square inches of brass fin that keep the boat on line even with a skier cutting hard behind.

SUNSCAPE 23 LSV

# A Luxury Sport-V THAT HANDLES LIKE A SMALLER INBOARD

SUNSCAPE 23 LSV

**one.** Stainless steel framed 55-watt Halogen docking lights give you peace of mind when coming in after sunset. Combined with the standard pop-up bow light and transom running light, they ease worries about getting home later than planned.

**two.** This year's Sunscape 23 LSV comes standard with the new Sony CDX-F5703R stereo system and six Sony Xplode speakers. The receiver offers incredibly clear CD playback and the ability to play MP3s on disc, CD-Rs and CD-RWs. An MP3 auxiliary jack is mounted on the driver's accessory panel and will accommodate any MP3 player for hours of your favorite digital tunes.

You may still enjoy the rush of an early morning slalom run, but you also want a boat comfortable enough for an expanding family. The Sunscape 23 LSV satisfies both with its combination of exceptional handling and extraordinary comfort.

The image shows the interior of a boat. On the left is a large, curved white vinyl seat with tan panels and red piping. In the center is a tan carpeted floor with a white plastic step. On the right is a white vinyl bucket seat with tan panels and red piping. In the background, a dashboard with three red-faced gauges and a black steering wheel is visible. The overall color scheme is white, tan, and red.

# 14

*The roomy interior is perfect for crowds up to 14 adults, with a built-in 96 quart ice chest and over 30 square feet of locking storage in the rear. A removable table makes down time relaxing and convenient, while the colorful 38 oz. G&T Marine vinyl, stuffed with three layers of foam, exudes its own sort of splendor.*

## WAKESSETTER VLX

**When it comes to natural selection, the Wakesetter VLX has clearly evolved beyond its not-so-humble beginnings as the wake riding boat of choice.**

It has leapt ahead of the pretenders and attained the status of legend in 2005. Sporting a completely redesigned hull and deck, the Wakesetter VLX now measures a full 21' 6" from bow to transom with a 99" beam.

# History Rewritten

**Luxury is normally overlooked in a hardcore wakeboard boat.** Enter the new Wakesetter VLX. The interior has been expanded to accommodate 11 people and redesigned to include panels of customizable accent colors that shoot through the comforting 38oz G&T upholstery. The passenger-side dash has been reshaped for 2005 to house a huge locking 1.5 cubic foot glove box which gives the dash a stylish new look, more storage and added security for valuables.

Looks can be deceiving however, as the excessive interior amenities belie the workhorse nature of the VLX. Topped by the new Titan Series III tower, the optional Illusion X or CFT Blade carbon fiber tower, the Wakesetter VLX looks as good as it performs. As *WaterSki* magazine says, this boat "is world-class."

**two.** In their endless quest for the breakthrough concepts that keep Malibu boats ahead of the curve, our engineers have added yet another terrific feature to this year's Wakesetter VLX. With as much as 1,250 lbs. of ballast to manage, they have added a standard Ballast Monitoring System (BMS) to the dash to allow riders to fine tune the weight placement in each area of the boat. The resulting ride is beyond imagination.

**one.** Capturing the best of technology, the new hull has been digitally fine tuned to increase handling and wake performance. The computerized precision of the design is reflected in the sleek reality of the finished product.

malibu

SUNSCAPE

**When it's time to step up to luxury performance, the versatile V-Drive Sunscape 21 LSV is an ideal choice.** *WaterSki* magazine notes, "Few boats marry the V-Drive setup and skiing per-

formance so well." The Sunscape 21 LSV was revamped for 2005 to offer a completely new deck and hull that raises an already superior boat to another plane of comfort and performance altogether.

**SUNSCAPE 21 LSV**

# Sport-V Versatility Meets Performance In A Luxury Package

Built on the all-new V25 Diamond Hull, the **Sunscape 21 LSV** exemplifies the **responsive handling and smooth slalom wakes** for which Malibu is known. The only V-Drive that truly thrives on the

slalom course, the Sunscape 21 LSV is in a class all its own. With an all-new, adjustable rudder, skiers can increase load for a day out on the course or set the rudder to neutral for a leisurely cruise.

one.

two.

three.

**one.** The pull-up pylon, which can be conveniently stowed when not in use, but is instantly available when you've got the course in your sights.

**two.** An oversized, flip-down drink holder is ever-ready, but conveniently tucked away when not in use.

**three.** Although it's the smallest of the Sport-V line, Malibu has complemented the Sunscape 21 LSV with a full array of amenities. A 60-quart insulated ice chest lies hidden beneath the wrap-around lounge, prepared to quench the biggest thirst at a moment's notice.

RESPONSIVE  
*smooth*

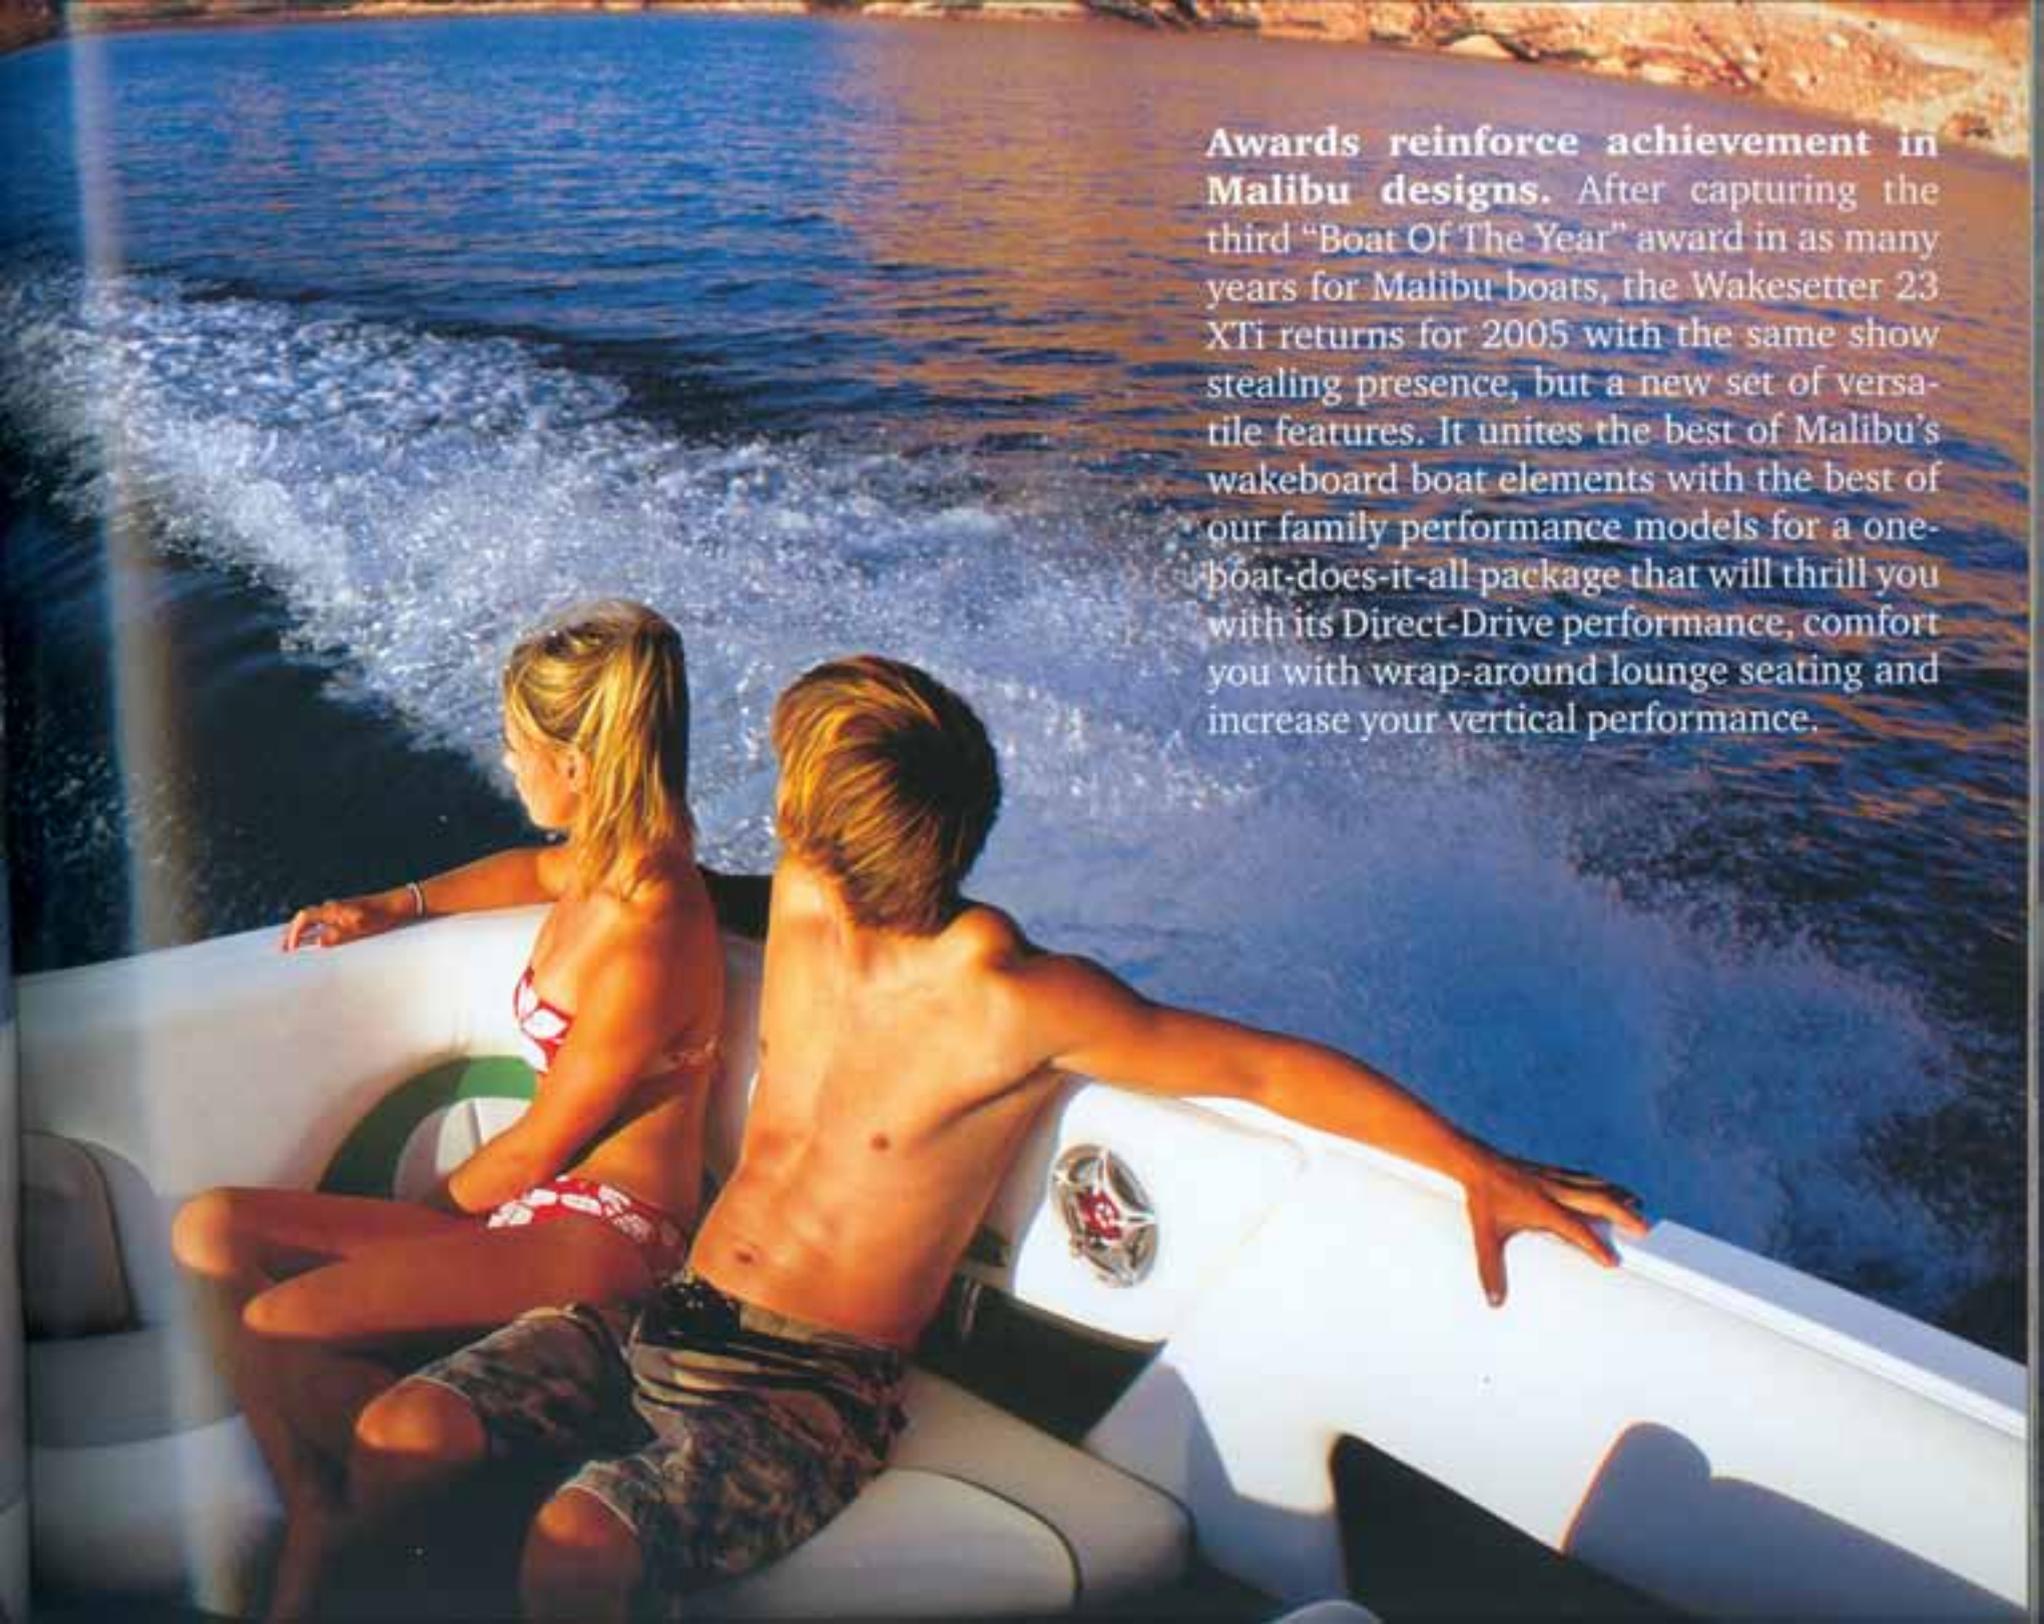

landing

SLALOM WAKES

A high-angle, rear-quarter view of a boat's wake on a bright blue body of water. The boat is moving away from the viewer, leaving a wide, white, frothy wake that tapers into a dark blue channel. In the background, a rugged, rocky coastline with brown and tan cliffs stretches across the horizon under a clear blue sky. A small, dark object, possibly a person or a small boat, is visible on the water's surface near the top right. The bottom right corner shows the white and green interior of the boat's cabin.

WAKESETTER 23 XTi

**Awards reinforce achievement in Malibu designs.** After capturing the third "Boat Of The Year" award in as many years for Malibu boats, the Wakesetter 23 XTi returns for 2005 with the same show stealing presence, but a new set of versatile features. It unites the best of Malibu's wakeboard boat elements with the best of our family performance models for a one-boat-does-it-all package that will thrill you with its Direct-Drive performance, comfort you with wrap-around lounge seating and increase your vertical performance.

2

“BOAT OF THE YEAR”  
AWARDS

# All Things Are Possible With A Malibu Perspective

With room for 14 friends, the **Wakesetter 23 XTi** obligingly offers three, distinct social areas. While some may prefer to stretch their legs in the spacious bow area, others may opt for the three-person observer seat. The social crowd, however, will usually collect in the rear wrap around lounge, with the conversational connectors enjoying the spotlight on the center sundeck.

Action: Gerry Nann

two.

**one.** The choice boat of Team Malibu rider and star of Malibu Just Ride Clinic tour, Gerry Nann demonstrates how he acquired his nickname "The Flying Nann." Fly behind a Wakesetter 23 XTi and you, too, will reach new heights.

**two.** Imagine the inconvenience of a center-mounted engine. The traditional center-mounted engine is no longer a deterrent to family boating, thanks to Malibu's unique take on space utilization. Malibu took another look at this potentially off-putting design and turned it into a usable space by creating a center sundeck, effectively eliminating any objection to the engine position by turning it into part of the social design.

**three.** Now imagine being able to keep your wet suits and towels warm. Malibu did, and our imagination resulted in the above-engine storage beneath the center sundeck.

**The versatile Sunsetter 23 XT*i* features the crowd-pleasing rear wrap around seating of the XT*i* series.** Offering advanced slalom wakes and the capability of creating satisfying wakeboard wakes, the Sunsetter 23 XT*i* is based on the digitally CAD-designed 23-foot V25 Diamond Hull. Replete with a plethora of Malibu amenities, the 23 XT*i* is a solid choice for a large family who loves to ski, cruise and wakeboard.

**SUNSETTER 23 XT*i***

# A Boat That Delivers Thrilling Performance For All

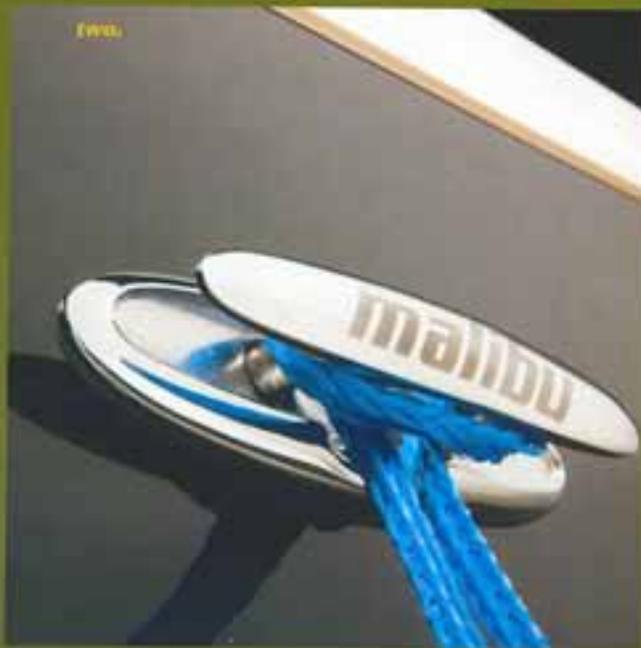

**one.** Malibu's engineers have turned the center-mounted engine into an asset, rather than an obstruction. Now it's a huge sundeck that houses not only the engine, but also a 15 cubic foot storage space ideal for skis, vests, boards, backpacks, you name it. The space above the engine even has a purpose, keeping towels, wet-suits or even pizzas warm.

**two.** With convenience in mind, the Sunsetter 23 XTi sports two pairs of stainless steel pull-up cleats. Ideally situated for tying up to a houseboat or a dock, the cleats neatly retract when not in use. The same is true of the pop-up pylon. When not in use, it retracts so as not to interfere with interior comfort. When needed, though, it can withstand as much as 2,000 pounds of pull.

From low, smooth, slalom wakes to height-defying wakeboard wakes, the Sunsetter 23 XTi meets all challenges head on and delivers superior water sports performance without sacrificing comfort.

The wraparound rear seating of the Sunsetter 23 XTi, with removable table, **honors the social nature of boating** by encouraging conversation and camaraderie. Room enough for five to seven adults and a very good time.

**The Wakesetter 21 XTi has been totally re-tooled to be even better for 2005.** Despite past accolades like “the best of both worlds,” Malibu engineers felt it was possible to improve this versatile cross-trainer. First on the list was increasing the size. Growing the V-Drive to a full 21.5 feet

long and 8.2 feet wide immediately opened up new possibilities for interior comfort. No worries though – the new and improved Wakesetter 21 XTi hasn't forgotten its wakeboarding roots. The Wakesetter 21 XTi continues to rip huge wakes and execute precision maneuvers.

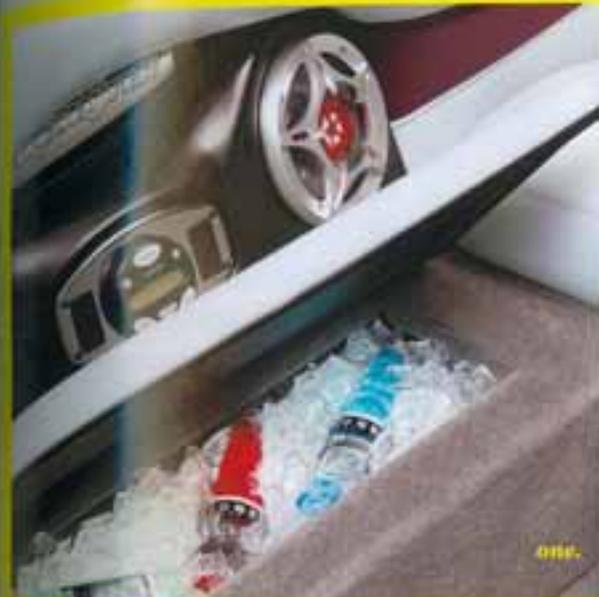

**WAKESSETTER 21 XTi**

40-quart insulated ice chest. Six compartments can be used as a sun-shading storage compartment for dripping rash guards or swimsuits.

two. New, polished stainless steel engine vents transform an otherwise run-of-the-mill boat feature into a sleek design element.

## WAKESETTER 21 XTi

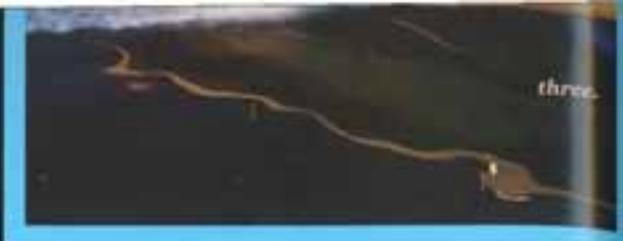

# *Incorporates Bigger And Better Into Better Than Ever*

Surely the best thing about the Wakesetter 21 XTi is its **ability to grow with your family's riding abilities** without sacrificing performance. Keep your early morning ski runs as they are, but introduce intermediate level wakes when you fill the 500 lb. center ballast. Deploy the Wedge and you immediately upgrade to an advanced level wake. Use both the ballast and the Wedge and you will face challenging, professional level wakes as long as you like.

The Sunsetter 21 XTi couples the nomi- upgraded amenities.

## A Multi-Talented Design for **Multi-Discipline** Water Sports Performance

The new Sunsetter 21 XTi incorporates **Sport-V space and Direct-Drive control** to satisfy families who seek world-class slalom wakes plus multi-sport versatility and a comfortable interior.

### SUNSETTER 21 XTi

*one.* The ergonomically sensitive driver's console features a two-tone, hand-wrapped dash, oversized, 5-inch servo gauges for easy viewing, and an Italian designed Isotta steering wheel and throttle knob. Illuminated rocker switches are within an arm's reach. The entire design combines to give the driver's console true sports car styling and control.

*two.* The entire interior of the Sunsetter 21 XTi has been reconfigured for more space and convenience. A new, 48-quart ice chest garners attention in the rear refreshment console, which enables passengers to control their environment including the optional stereo, heater and hot water shower controls.

*three.* Beauty in motion. That's the effect of the graceful new design of the Sunsetter 21 XTi, with its redesigned 21.5 foot V25 Diamond Hull and a perfectly balanced 320 horsepower multi-port fuel injected center-mounted engine. The combination of lift from the hull and precision handling from the powertrain directed by zero-friction throttle cables, rack and pinion steering and CNC machined propeller with adjustable rudder stream quality as this boat passes by.

MORE,  
*more,*  
*more...*

**SUNSETTER LXi**

**The Sunsetter LXi was already the largest tow boat ever sanctioned for record-capable USA Water Ski tournaments, but now its been resized for additional comfort and space.** A full 21'6" long with a 98" beam, the 2005 Sunsetter LXi offers more room, with the same outstanding slalom performance. Now big enough to accommodate 12 adults, this sporting sedan of a boat takes on all the gear and company you need.

*While the Sunsetter LXi is a lock for serious slalom skiers who are looking to accommodate their families, adding the optional wakeboarding features like a Titan Series III Tower, the Wedge and Mid-Ship Malibu Launch System (MLS) turn it into a respectable wake machine.*

## *Unbridled athleticism. Unending space.*

**Thumping with a 320 horse power multi-port fuel injected LCR engine** standard, this slalom machine will shoot you through the course with ease. Aided by its new 21.5 V25 Diamond Hull, the smooth action of zero-friction throttle cables, the control of rack and pinion steering, the customized pull of the new adjustable rudder and the arm stretching hole shot of the CNC machined propeller, the Sunsetter LXi is your skiing dream come true. Did we mention there's room enough for you to bring your whole family along?

**one.** One of the benefits of the Sunsetter LXi's extra space is a redesigned observer's seat that offers enough space for three adults without cramping the driver's leg room. A new 1.5 cubic foot locking glove box has been added, housed in a two-tone, hand wrapped observer side dash. Malibu distinguishes itself in the details. This new dash complements the driver's side and together they are now available with the Sport Sheild option that offers colors such as Yellow, Regal, Reuben, Dark Blue and Midnight Blue to enhance the interior design.

**two.** An all-new locking split lid trunk enables passengers to access their gear from inside the boat or from the swim step when they are ready to switch from spectator to competitor.

**SUNSETTER LXi**

## RESPONSE LXi

**The Response LXi has become the industry standard for world class three-event tow boats.** The Response LXi was the power behind the highest slalom cut in tournament history at the 2004 Malibu Open, 1 at 41 off. The friskiness of a sports car coupled with the posh interior

of a luxury sedan make this an irresistible option for professional level water sports athletes and a satisfying ride for their families. It's a thoroughbred on the water. As *WaterSki* magazine raved, "It's a look that's tough to match in any luxury cruiser, let alone a world-class ski boat."

one.

one. The Response LXi comes standard with Malibu's patented Swivel Head Pylon. Tested to resist up to 2,000 pounds of pull, the pylon extends the life of your rope by swiveling with the slalom skier thanks to the smooth motion of a dual needle bearing core. Capped by a Malibu-sun branded chrome top, it is an instantly recognizable symbol of excellence. Also available in chrome, pictured here.

two. Everything about the Response LXi speaks to its superior design. The two-tone, hand-wrapped dash elegantly embraces the set of chrome bezeled 5" servo mechanical driven Medallion gauges. It is set off by the illuminated rocker switches and Italian designed Isotta steering wheel and throttle knob.

## RESPONSE LXi

# Space and Grace Even Under the Pressures of Competition

If you are looking for a world-class three-event ski boat, there's no need to look beyond the Response LXi. It has all the required features, plus the extras only available through Malibu.

## FROM THE OUTSIDE THE RESPONSE LXI SCREAMS SPEED.

*The sleek, customizable gel coat scheme accurately reflects the sensation of driving this precision machine, with its nimble SV23 Diamond Hull and the thrust of the 320 horse power multi-port fuel injected LCR engine. No matter how you view it, from the driver's seat, from the edges of the slalom course, or from the land, the Response LXI is poetry in motion.*

Response LXI shown.  
Gel Coat: Dark Blue, Hull Mar. White, Hull Accent: Ebony.  
Deck Mar: Dark Blue, Deck Mar, White, Deck Accent: Ebony.

**If you are serious about slalom skiing, you already know about the Response LX.** The only boat in history to receive three Powerboat Magazine "Tow Boat of the Year" awards, the Response LX has made its mark on history. One of the only open bows ever to tow multiple world records, the Response LX is by far the best value in its class. This boat has pulled 11 world records since 1999 and is ever ready to add another. With a Response LX, you may set your own record.

**RESPONSE LX**

RESPONSE LX

malibu

*eleven*

WORLD RECORDS PULLED

## Seize the day. One buoy at a time.

You don't have to be first on the water to appreciate the Response LX, but chances are you will see plenty of them out for that sunrise slalom run. One of the most widely used

USA Water Ski sanctioned tow boats in the world, the extreme maneuverability of the Response LX makes it a top choice for serious three-event skiers and barefooters.

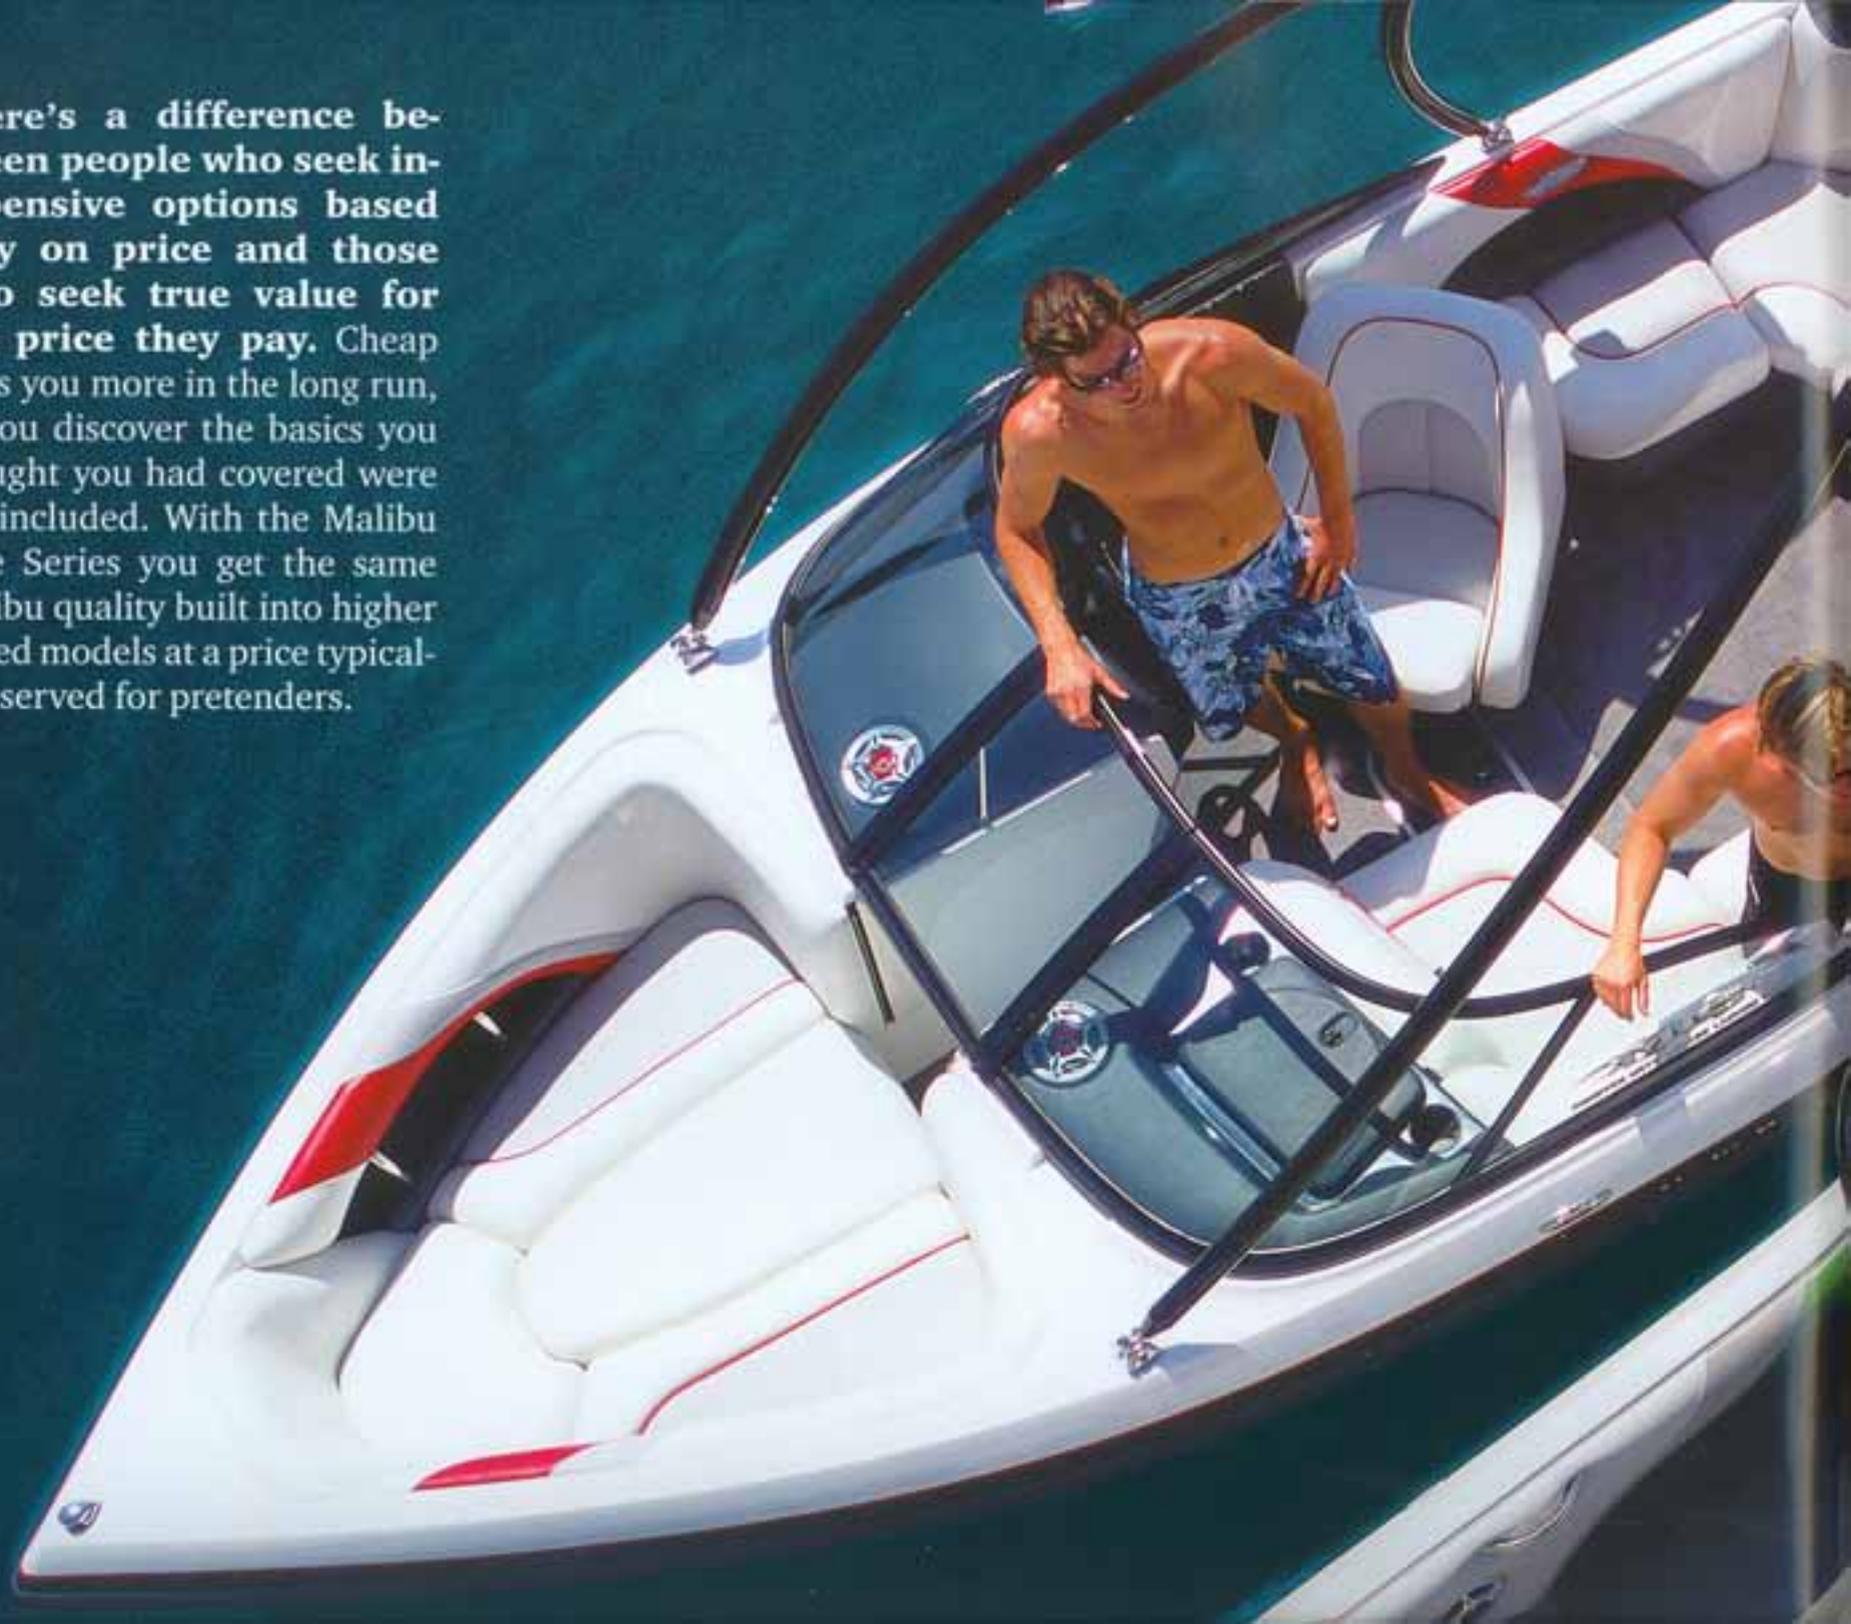

**one.** Drivers always feel in control of the Response LX, but passengers might need a little extra leverage negotiating the thrillingly tight turns it can execute. That's why Malibu has added stainless steel custom grab rails for extra safety. Hold on tight, the Response doesn't like to be reigned in and neither will you after you get a taste of its capabilities.

**two.** The storage trunk offers room enough to store skis and wakeboards so you can be as ready to go as the Response LX. It will get you through the slalom course with record-breaking precision then allow you to change it up and engage the optional Wedge for a few beginning wakeboard sessions.

**RESPONSE LX**

**There's a difference between people who seek inexpensive options based only on price and those who seek true value for the price they pay.** Cheap costs you more in the long run, as you discover the basics you thought you had covered were not included. With the Malibu Ride Series you get the same Malibu quality built into higher priced models at a price typically reserved for pretenders.

RIDE Series

Malibu Boats new iRide is available with removable Launch Seats that allow two more people to face the rider and share in the wakeboarding action. Upholstered to match the boat's custom interior, Malibu Launch Seats also give riders the ability to customize the passenger weight on either side of the engine box for a tailored ride.

All Ride Series boats come with the same, stylish, chromed huller aluminum interior emblems found on Malibu's most luxurious models. All Ride Series boats are built to the same exacting standards as other Malibu models because we take pride in everything that wears our logo.

## ***a genuine bargain for genuine quality***

Choose an iRide, the inboard version of the Ride Series, and you will own the first entry performance wakeboard boat with standard multi-port fuel injection, proven Malibu quality construction and world class wake characteristics. And you won't break the bank.

The vRide addresses the entry level wakeboarding crowd with a high quality, world class Sport-V wakeboard boat. The vRide joins the iRide on the two member list of entry class tow boats with standard multi-port fuel injection and the eight attachment point strength of Malibu's Fiberglass Engine Chassis System (FibECS). The vRide is also built with Malibu Sound Suppression Technology (MSST) for a quiet ride that is comparable to a Luxury Sport-V.

The Ride Series boats are built on the same SV23 wake hull that has been propelling wakeboarders to record heights for years. Optimize the wakeboarding experience with the standard 500 pounds of ballast in the center Malibu Launch System, the Gorilla fins on the vRide for tracking and add an optional Wedge for an extra 1,000 pounds of downthrust. Only your wallet will know the difference between your Malibu iRide and higher priced models. No matter where it rings out on the cash register, Malibu stands behind every model it makes with a Transferable Limited Lifetime Warranty.

*What do Malibu designers and world class athletes have in common? We are unrelenting in our quest for perfection. Their pursuit of excellence is why we value, and seek out, their opinions. Malibu believes it is vital to stay attuned to top performing water sports enthusiasts so we can build better boats - for you.*

## learn from the PROS

**DREW BOSS**  
ski academy

**USA**  
WATER SKI

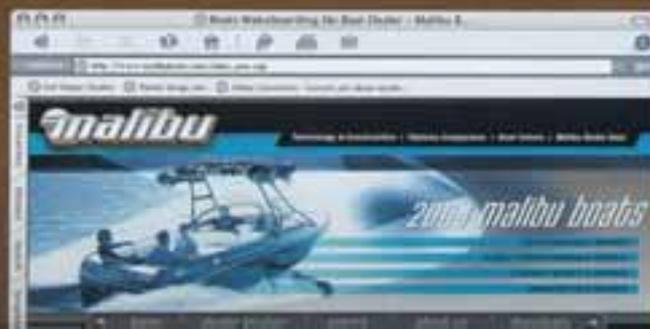

*When you purchase a boat of Malibu's caliber, your investment buys more than a precision water sports craft. You buy the Malibu difference. The difference is tangible. It is the transferable, limited lifetime warranty, the three-year bow-to-stern warranty on all parts and labor, and the results of our award-winning engineering, design and craftsmanship.*

*The Malibu difference is also intangible. It is the relationship we build with our customers.*

*Our door is open for plant tours five days a week. You can even schedule to tour the factory while your boat is going through production. We want every Malibu owner to feel like part of the family. Our dedication to that is total. Our efforts are always a step beyond.*

**Who says blood is thicker than water?** When the water is beneath a Malibu boat it's a tie that binds. There is a strong connection among Malibu boat owners. Club Malibu fosters those relationships with special owners' events and VIP treatment at the Malibu Open. Club Malibu members receive discounts on Malibu gear and services as well as a membership care package chock full of Malibu merchandise. Bound by a passion for water sports and the world's number one selling tow boat, Club Malibu members are family.

### **Issotta Steering Wheel.**

Add quality and distinction to the driver's helm with the addition of an Italian Issotta "Valllunga" Steering Wheel. Standard on some Malibu models and available on all others.

### **Issotta Throttle Knobs.**

Remember when a throttle lived up to it's name? Put the hammer down with a new chrome throttle knob from Issotta. Standard on some Malibu boats and available on all others.

### **Stainless Cup Inserts.**

Malibu's new stainless steel cup holders can add more glimmering points of interest to any Malibu boat interior. And this beauty is functional. These cup holders are built to withstand the rigors of marine use and they are easy to keep clean.

**Sony**  
The Sony  
imagine  
what you  
need

### **Perfect Pass Cruise Control Systems.**

Lock in for a perfect slalom or wakeboard run with Perfect Pass Cruise Control Systems. Available in both Wakeboard Pro and Digital Pro Systems.

### **Driver's Seat Heater.**

Keeps the driver warm and comfortable with an exclusive driver's seat heater. Available on all models.

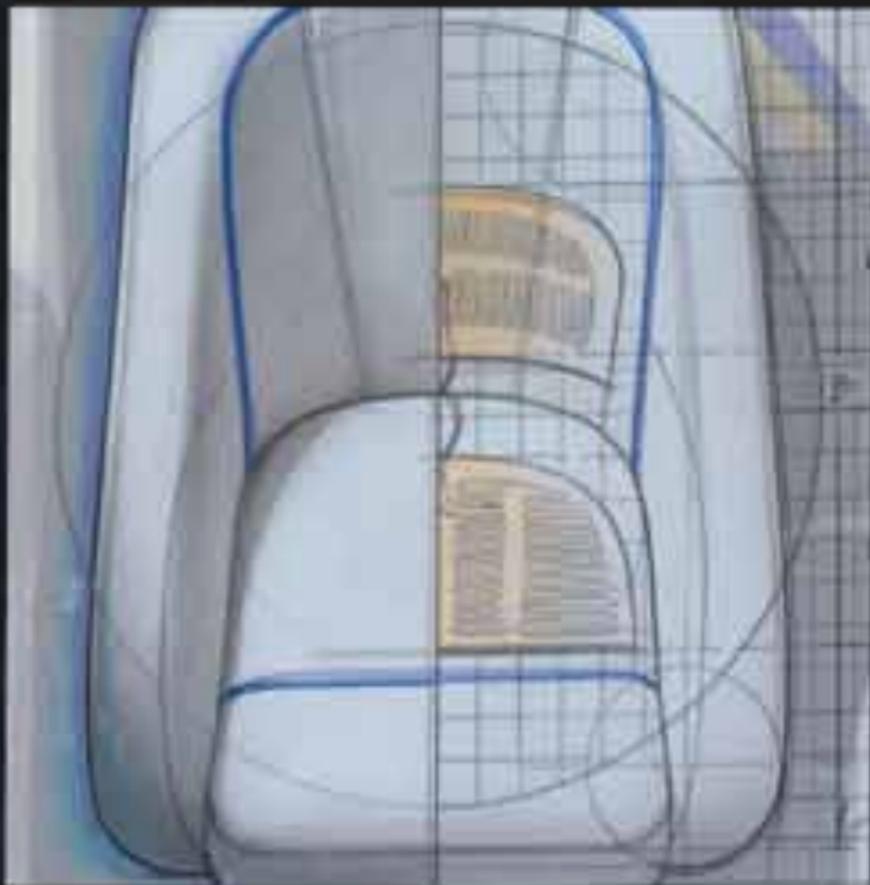

## **Accessories**

Malibu is creating new ways to help you continue the custom tow boat ride. The evidence is in your hands. Take a look. These Malibu Boats Accessories were designed with your boat in mind. And built with the quality and craftsmanship you expect from genuine Malibu Boats parts.

### **Sony CD Player.**

Malibu's Sony CD player spins MP3 files recorded on CD-R or CD-RW format discs, as well as off-the-shelf music CDs, with the power of an internal amp (23.2 watts RMS/52 peak x 4 channels). The Malibu Sony CDX-F5705X also comes standard with an MP3 Auxiliary Jack so you can crank your MP3 player's digital tunes.

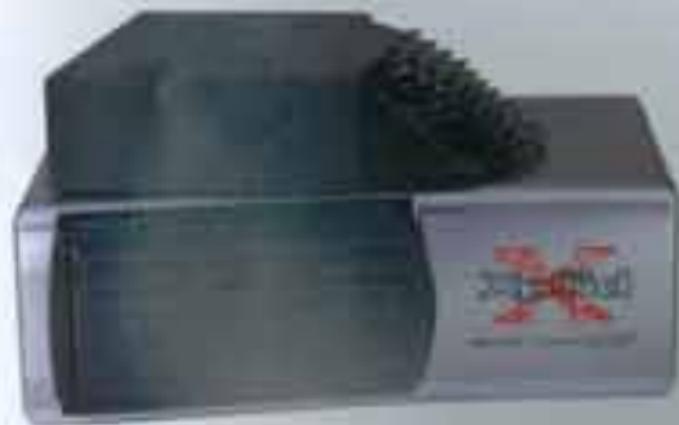

### **Launch Seats.**

Add additional seating and ballast to your inboard boat with Malibu Launch Seats placed on either side of the motorbox.

### **Carpet Saver.**

Maintain the beauty of your boat's carpeting by installing a Malibu Carpet Saver custom fit for each Malibu Boat. Colors available in Suede or Sterling. Available on all models.

### **Sony Xplode 10-Disc Changer.**

Malibu's Sony Xplode CD changer holds 10 discs, and features 12-second Advanced Electronic Shock Protection to make even rough water enjoyable. The versatile changer plays CDs, CD-Rs and CD-RWs, as well as recordable discs loaded with MP3 files.

### **Stainless Cup Inserts.**

Malibu's new stainless steel cup holders can add more glimmering points of interest to any Malibu boat interior. And this beauty is functional. These cup holders are built to withstand the rigors of marine use and they are easy to keep clean.

## **Accessories**

Malibu is creating new ways to help you continue the custom tow boat ride. The evidence is in your hands. Take a look. These Malibu Boats Accessories were designed with your boat in mind. And built with the quality and craftsmanship you expect from genuine Malibu Boats parts.

### **Sony Xplode Speakers.**

The Sony Xplode 6 1/2" speaker from Malibu offers comprehensive 3-way response in an aggressive marine made package. A polypropylene balanced-dome midrange and PEI dome tweeter will project warm mids and intense highs within your Malibu boat.

### **Kicker Subwoofer.**

Malibu's Kicker Subwoofer pumps out impressive bass with a Solo-Baric 1.7 8" subwoofer in a rugged vented enclosure.

### **Kicker Amp.**

The Kicker 3-channel Amplifier offered by Malibu has two channel sections to push your front or rear-deck speakers, while the efficient Class D sub section produces 200 watts RMS (400 watts RMS at 2 ohms) of bass.

### **Sony CD Player.**

Malibu's Sony CD player spins MP3 files recorded on CD-R or CD-RW format discs, as well as off-the-shelf music CDs, with the power of an internal amp (23.2 watts RMS/52 peak x 4 channels). The Malibu Sony CDX-F5705X also comes standard with an MP3 Auxiliary Jack so you can crank your MP3 player's digital tunes.

### **Sony Remote.**

With Malibu's additional Sony Remote you can control your Sony Stereo System from the rear seating area or even the swim step of your Malibu boat!

### **Carpet Saver.**

Maintain the beauty of your boat's carpeting by installing a Malibu Carpet Saver custom fit for each Malibu Boat. Colors available in Suede or Sterling. Available on all models.

### **Sony Xplode 10-Disc Changer.**

Malibu's Sony Xplode CD changer holds 10 discs, and features 12-second Advanced Electronic Shock Protection to make even rough water enjoyable. This versatile changer plays CDs, CD-Rs and CD-RWs, as well as recordable discs loaded with MP3 files.

### **Sony Xplode Amp.**

Whether your system requires 60 watts RMS x 4 at 4 ohms, 75 watts RMS x 4 at 2 ohms or 60 watts RMS x 2 + 150 watts RMS x 1 in 3-channel mode, Malibu's Sony XM-4060GTX Xplode amplifier has the power and flexibility you need to get that sound you are looking for.

### **Sony XM Receiver.**

This compact tuner adds XM satellite tuning capability to your Malibu Sony CD player for access to over 100 channels of award-winning music, entertainment, sports and news.

### **CFT Blade Tower.**

Malibu designers joined aerospace composite engineers to create the new CFT Blade Tower. Constructed of carbon graphite, the Blade has four integrated 6" by 9" Sony Xplode speakers and a set of two board racks built into the tower design, standard. Optional Malibu Blade accessories include tower lights and a bimini.

### **Illusion X Tower.**

The Illusion X's forward sweep design and sleek look complement Malibu's body lines and eliminates the common box design. It has outstanding forward visibility, superior strength and unique styling. The Illusion X is available with as many as four optional 6" Sony Xplode tower speakers, racks, lights and/or a bimini.

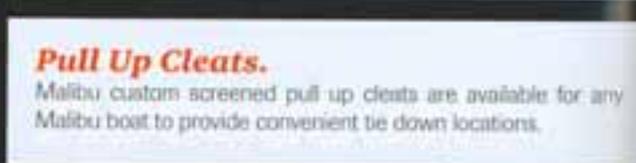

### **Titan Series III Tower.**

The latest Titan design accentuates Malibu's boat lines with the use of bends and angles in unparalleled 2 1/4" steel tubing. Convenient breakdown, unparalleled stability and strength in design remain its trademark. The Titan Series III is available with optional racks, lights, speakers and a bimini.

### **Boat Biminis.**

Take refuge from the sun with a custom Sunbrella bimini top available on all models as well as custom tops to fit Titan, Illusion X and Blade Towers.

### **Pull Up Cleats.**

Malibu custom screened pull-up cleats are available for any Malibu boat to provide convenient tie down locations.

### ***Fiberglass Swim Platform.***

Malibu fiberglass swim platforms have been designed with a slight rocker to accommodate wakeboard and ski fins and to eliminate maintenance associated with wood platforms. Available on all models.

### ***Docking Lights.***

Add halogen docking lights to your Malibu for safer maneuvering around docks and when trailering. Docking lights are not available on Sportsters and Response Series boats.

### ***Turn Down Polished Stainless Exhaust Tips.***

Add style and function to your Malibu boat with the new turn down polished stainless exhaust tips designed to lower exterior noise levels in your Malibu. Available on all Malibu models.

**Polished Stainless Exhaust Tips.**

Scream performance with the addition of IMCO polished stainless exhaust tips, available on all Malibu boats.

**Scarpa Suppression Plate.**

Precisely engineered to fasten to the four connection points of an existing Malibu Wedge plate, the Scarpa Suppression Plate (SSP) extends from the transom and reshapes the industry's most sought-after wake into a perfectly created barefoot wake, smooth and easy to ride.

**Stainless Wedge.**

Malibu's ingenious wake producer gets a shine with the optional stainless Wedge. Same great wakes with a little more appeal for those looking for the total appearances package. The stainless option is available to accompany all Malibu hull types.

**Bow Cover.**

Custom tonneau covers are available for all open bow Malibu boats. Snap on Sunbrella canvas covers protect bow upholstery and add additional protection from the wind.

**Swim Platform Cover.**

Protect your swim platform from the elements and allow easier access to transom lifting rings with a Sunbrella Canvas Cover. Available in assorted colors.

**Bimini Boot.**

When traveling, zip up your bimini canvas in a custom Malibu embroidered bimini boot.

### ***Canvas Spare Tire Cover.***

Malibu's canvas spare tire cover is embroidered with the Malibu logo and is custom fit for both 14" and 15" wheel sizes.

### ***Custom Billet Trailer Rims.***

Stand out from the pack and enhance your rig's package with custom billet rims available on Extreme, Boat Mate and SMP trailers.

### ***Boat Covers.***

Protect your boat with Sunbrella fabric boat covers for any style Malibu including custom fit tower covers. Each cover is custom screened with the Malibu logo. Available in assorted colors.

Your Malibu dealer has up-to-date information on new colors and styles that often are introduced during the model year. Your Malibu dealer can provide a complete list of standard and optional equipment and colors. Specifications are subject to change without notice. Weights and volumes are estimates, and can vary from boat to boat due to equipment variations. **BOARDING SAFETY:** Please remember to boat responsibly and respect the rights of others. Please remember to never drink and drive.
