We now have 30 years of Malibu excellence under our belts. As we look toward the next 30 years, we see a continuum of innovation and creativity. Malibu. Living the dream and keeping the dream alive.

IT'S COMPLETELY NATURAL INNOVATION IS IN OUR DNA

Just when others are beginning to up their commitment to product development, Malibu has focused on the future and doubled-down on innovation with two new models as well as new features and options for 2012. The Response TXi and the Wakesetter 22 MXZ expand the Malibu line at opposite ends of the spectrum. The TXi, built on the new T Cut Diamond Hull, is a new record-capable tournament ski boat suitable for all ski levels, whereas the Wakesetter 22 MXZ has maximized interior accommodation, wakes and performance to put it in a class by itself. Our new Hi-flow Malibu Launch System (HiMLS) fills and drains ballast in half the time. Auto Pull Up (APU) is an all new MaliView system that enables the driver to pull a rider or skier out of the water at the same speed and tempo every time.

WITH THEM YOU SETTLE
WITH US YOU SETTLE IN

When we introduced the MaliView dash control it was the first of its kind in the marine industry and quickly elevated the expectations for all drivers. Now that our competitors are playing catch up, we have evolved and refined the level of cockpit control for Malibu drivers. Something new to focus on within MaliView is Auto Pull Up (APU). A system designed to give the athlete in-

to the perfect pull even right out of the water. The Malibu Touch Command (MTC) offers useful features like graphical ballast and lighting zone controls, plus the security of coded, keyless ignition standard. Video with rear-view camera inputs, GPS chart plotting, USB playback and phenomenal rider presets are just some of the options that make driving a Malibu more fun.

INTERIOR BEAUTY & COMFORT

FORM PLUS FUNCTION WRAPPED IN LUXURY

You will spend more time inside your boat than in the water, so Malibu has always focused on making the most of that experience. Form and function are shaped into a personal space that offers exceptional comfort and durability. From the French stitched finishing to the deep seating, oversized stainless steel cup holders, LED lighting and more, Malibu boats are replete with the special touches that set exceptional apart from ordinary. Optional Rockford Fosgate speakers let you create the musical ambiance that suits your mood. One look at a Malibu interior provides a wealth of information - it's that easy to tell the difference.

Everywhere you look inside a Malibu boat you will discover features that speak to exactly what you need. Maybe you want the convenience of an accessible ice cooler in the rear. Perhaps you prefer extra bow seating for your family. And everywhere you expect to store a drink, there's a stainless steel cupholder. It's that simple. Malibu engineers use our boats too - and when they discover something that would make their experience better, they know it would make yours better too, so they build in their ideas. That's why it will seem they have thought of everything.

WAKESSETTER SERIES

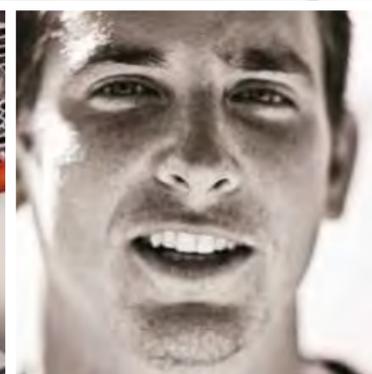

Malibu Wakesetter Series boats have a broad fan base. From professional level riders to their friends and family, this line evokes admiration from all who ride boards.

ALL AROUND WINNER Even welterweights can deliver a knockout punch. The Wakesetter VTX may look like a nice little wakeboard boat, but it brings big power to the fight. Professional wakeboarders like Team Malibu Australian Sam Thomson agree. Small but powerful, the VTX generates big, beautifully shaped wakes and comfortably accommodates 11 people. Holding up to 1250 pounds of Malibu Launch System (MLS), the VTX is a big wake machine, but if you opt for the 3DVTX with Cut Diamond hull you will have the diversity to choose between big air and smooth slalom cuts. Either way, you win.

Length 20'6.10m Beam 98"/2.49m Draft 22"/0.56m Capacity 11 persons Fuel 41 gal./155L Weight 3500lbs./1588kg

EVERYTHING AND THEN SOME It's not a short story, it's a novel. The VLX is so much more than the professional riders' choice. As one of the most decorated wakeboard boats available, there are volumes to say about it. But, the essential plot point is that this boat offers the complete package: big air wakes and an interior that lets you settle in. With its sport-specific hull that produces big, perfectly sculpted wakes, and the available Patented Power Wedge with up to 1250 pounds of Malibu Launch System, you can write your own chapters to cover anything from novice thrills to pro-level victories. Add your own footnotes with the Malibu Touch Command (MTC) and available MaliView Dash System to start the sequel.

Length 21.6'/6.55m Beam 100"/2.54m Draft 24"/0.61m Capacity 14 persons Fuel 41 gal./155L Weight 3700lbs./1678kg

FAST FORWARD Some people just prefer to be front and center. That's why we built the new Wakesetter 22 MXZ with a pushed-back helm that creates ample bow room. With all the performance advantages of a Malibu Wakesetter already in place, this open bow model will appeal to hard core boarders and lounge lizards alike. In fact, the helm and lounge mimic other Wakesetter interiors with the intricate, plush upholstery you have come to expect from Malibu, plus stainless steel accents and a precisely placed sound system. This boat offers social spaces everywhere, including the transom seating, with easy access to the swim step and ice chests. The eye-catching exterior will elicit covetous stares, but the exceptional performance will bring smiles of satisfaction.

Length 22.3'/6.78m Beam 102"/2.59m Draft 27"/0.69m Capacity 15 persons Fuel 50 gal./189L Weight 4000lbs./1814kg

PROFESSIONAL PREFERENCE High-ranking pro riders such as Chad Sharpe and Brian Grubb groom their performance behind a Wakesetter 23 LSV for good reasons – big wakes and even bigger comfort. There’s high demand for the 23 LSV, and this boat can handle the spotlight. The workhorse of the Wakesetter line, the 23 LSV motors back onto the scene in 2012 with as much as 1350 lbs of Malibu Launch System (MLS), Illusion G3 with standard Titan Spinner Combo Surf Racks, Rider Presets and the available Patented Power Wedge to customize wake size and shape. The Wakesetter 23 LSV is the go to boat for pro riders and riding families.

Length 23’/7.01m Beam 102”/2.59m Draft 27”/0.69m Capacity 15 persons Fuel 53 gal./201L Weight 4100lbs./1860k

SURF'S UP Massive wakes, killer waves and riders who love big air. That's the story of the Wakesetter 247 LSV. Spacious enough for a small town, comfy enough for royalty, the 247 LSV serves up the best wakeboarding experience in the 24 to 25-foot size class. This bad boy offers 410 horses of standard power, a sophisticated interior design and available Wet Tec floor with snap-out carpet. Designed for the social animal, the rear seating arrangement invites multiple generations to share the experience without feeling cramped. Diversity is achieved with a boat that offers so much to so many.

Length 24.7/7.49m Beam 102"/2.59m Draft 27"/0.69m Capacity 17 persons Fuel 84 gal./318L Weight 4200lbs./1905k

WAKE TOOLS

READY AIM RIDE

Add pop to your sizzle with Malibu's extensive wake tools. From the built in Malibu Launch System (MLS) to Rider Presets, to the available Power Wedge, it's easier than ever to dial in your perfect wake. The new Auto Pull Up (APU) has been incorporated into the available MaliView Dash and Entertainment System to guarantee a perfect pull out of the water, every time. Set the tempo after pulling the rider up the first time on record. Then, simply recall the pull up setting in MaliView and the exact throttle tempo and boat speed will be duplicated, every time. Only Malibu innovates like this.

DREAM RIDE The Ride Series from Malibu boats has been making dreams come true for pro riders and amateurs alike for years. This pair of 21 and 23-foot models, formerly Wakesetters, are established rides for World Class riders and wakeboard events. It always pays to use the best equipment and no matter what your level, these pro-caliber wakes will help you reach your goals. Even better, the award-winning Malibu-level performance and construction offers an enormous feature-set at an affordable price. An Illusion G3 tower with Titan Slide-off Spinner Combo Racks, 400 lbs. of sub-floor rear ballast, a Boatmate Tandem Axle Trailer, Precision Pro Speed Control, a color matched fiberglass swim platform with engineered board saving rocker and exclusive Ride Series graphics all make a home in both of the Ride Series models, standard. Live the dream.

Length 21.6'/6.55m Beam 98"/2.49m Draft 24"/0.61m Capacity 13 persons Fuel 48 gal./182L Weight 3500lbs./1588k
 Length 23'/7.01m Beam 100"/2.54m Draft 27"/0.69m Capacity 15 persons Fuel 56 gal./212L Weight 3900lbs./1769k

RESPONSE SERIES

The record-breaking Response series of direct-drive boats incorporates the traditional layout of a ski boat with all the innovation and versatility you expect from Malibu.

2011 MALIBU OPEN

OPEN AMAZES ALL

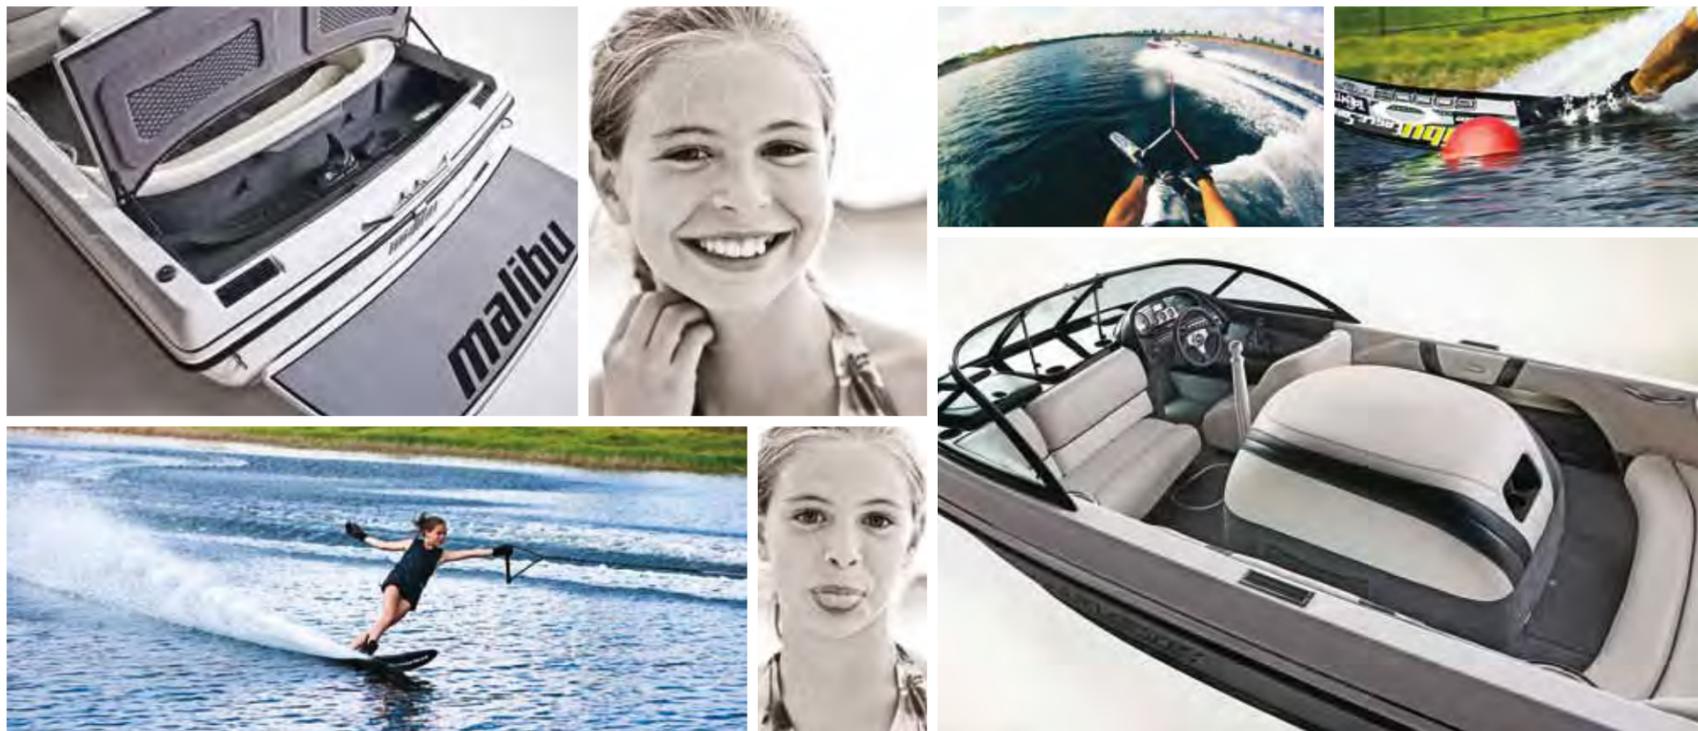

The Malibu Open Waterski Championship showcases elite water sports athletes by setting up challenging competition with a \$65,000 purse in a fan-accessible format. Pulled by the new Reponse TXi, the 2011 Malibu Open drew record-setting crowds. Team Malibu's own Will Asher captured Men's Slalom gold for the second consecutive year, but it was the fans who were the real winners as the experience at Milwaukee's Veteran's Park Lagoon was free to all comers.

CHAMPION TESTED RIDER APPROVED No question, the "T" stands for tournament, but even if you only compete against yourself, the Response TXi will be your best training aid. Built on the new T Cut Diamond hull, the TXi disciplines the wakes at speeds and line lengths from beginner to pro levels. World Champions like Will Asher and Thomas Degasperi, as well as World Record Holder Regina Jaquess, train with the Response TXi. The Malibu TXi is also the perfect boat for those who love to free ski and is as at home at the Malibu Open as your family's next day on the lake.

Length 20.6'/6.25m Beam 93.5"/2.37m Draft 22"/0.56m Capacity 09 persons Fuel 40 gal./151L Weight 2900lbs./1315k

STAYING THE COURSE In this case, the world really is flat. The functionally simple Response packages deliver deliciously flat wakes and world-class performance. In fact, performance is priority as Response describes not just a name but an attitude. This boat is all business with its fingertip control and traditional interior designed to maximize comfort and usable storage. With a closed bow design this boat means business and that business is skiing. It's your ticket to the course.

Length 20' / 6.10m Beam 90" / 2.29m Draft 22" / 0.56m Capacity 08 persons Fuel 33 gal. / 125L Weight 2450lbs. / 1111kg

SKI WAKE SKATE JUMP SURF
THE NATURALS

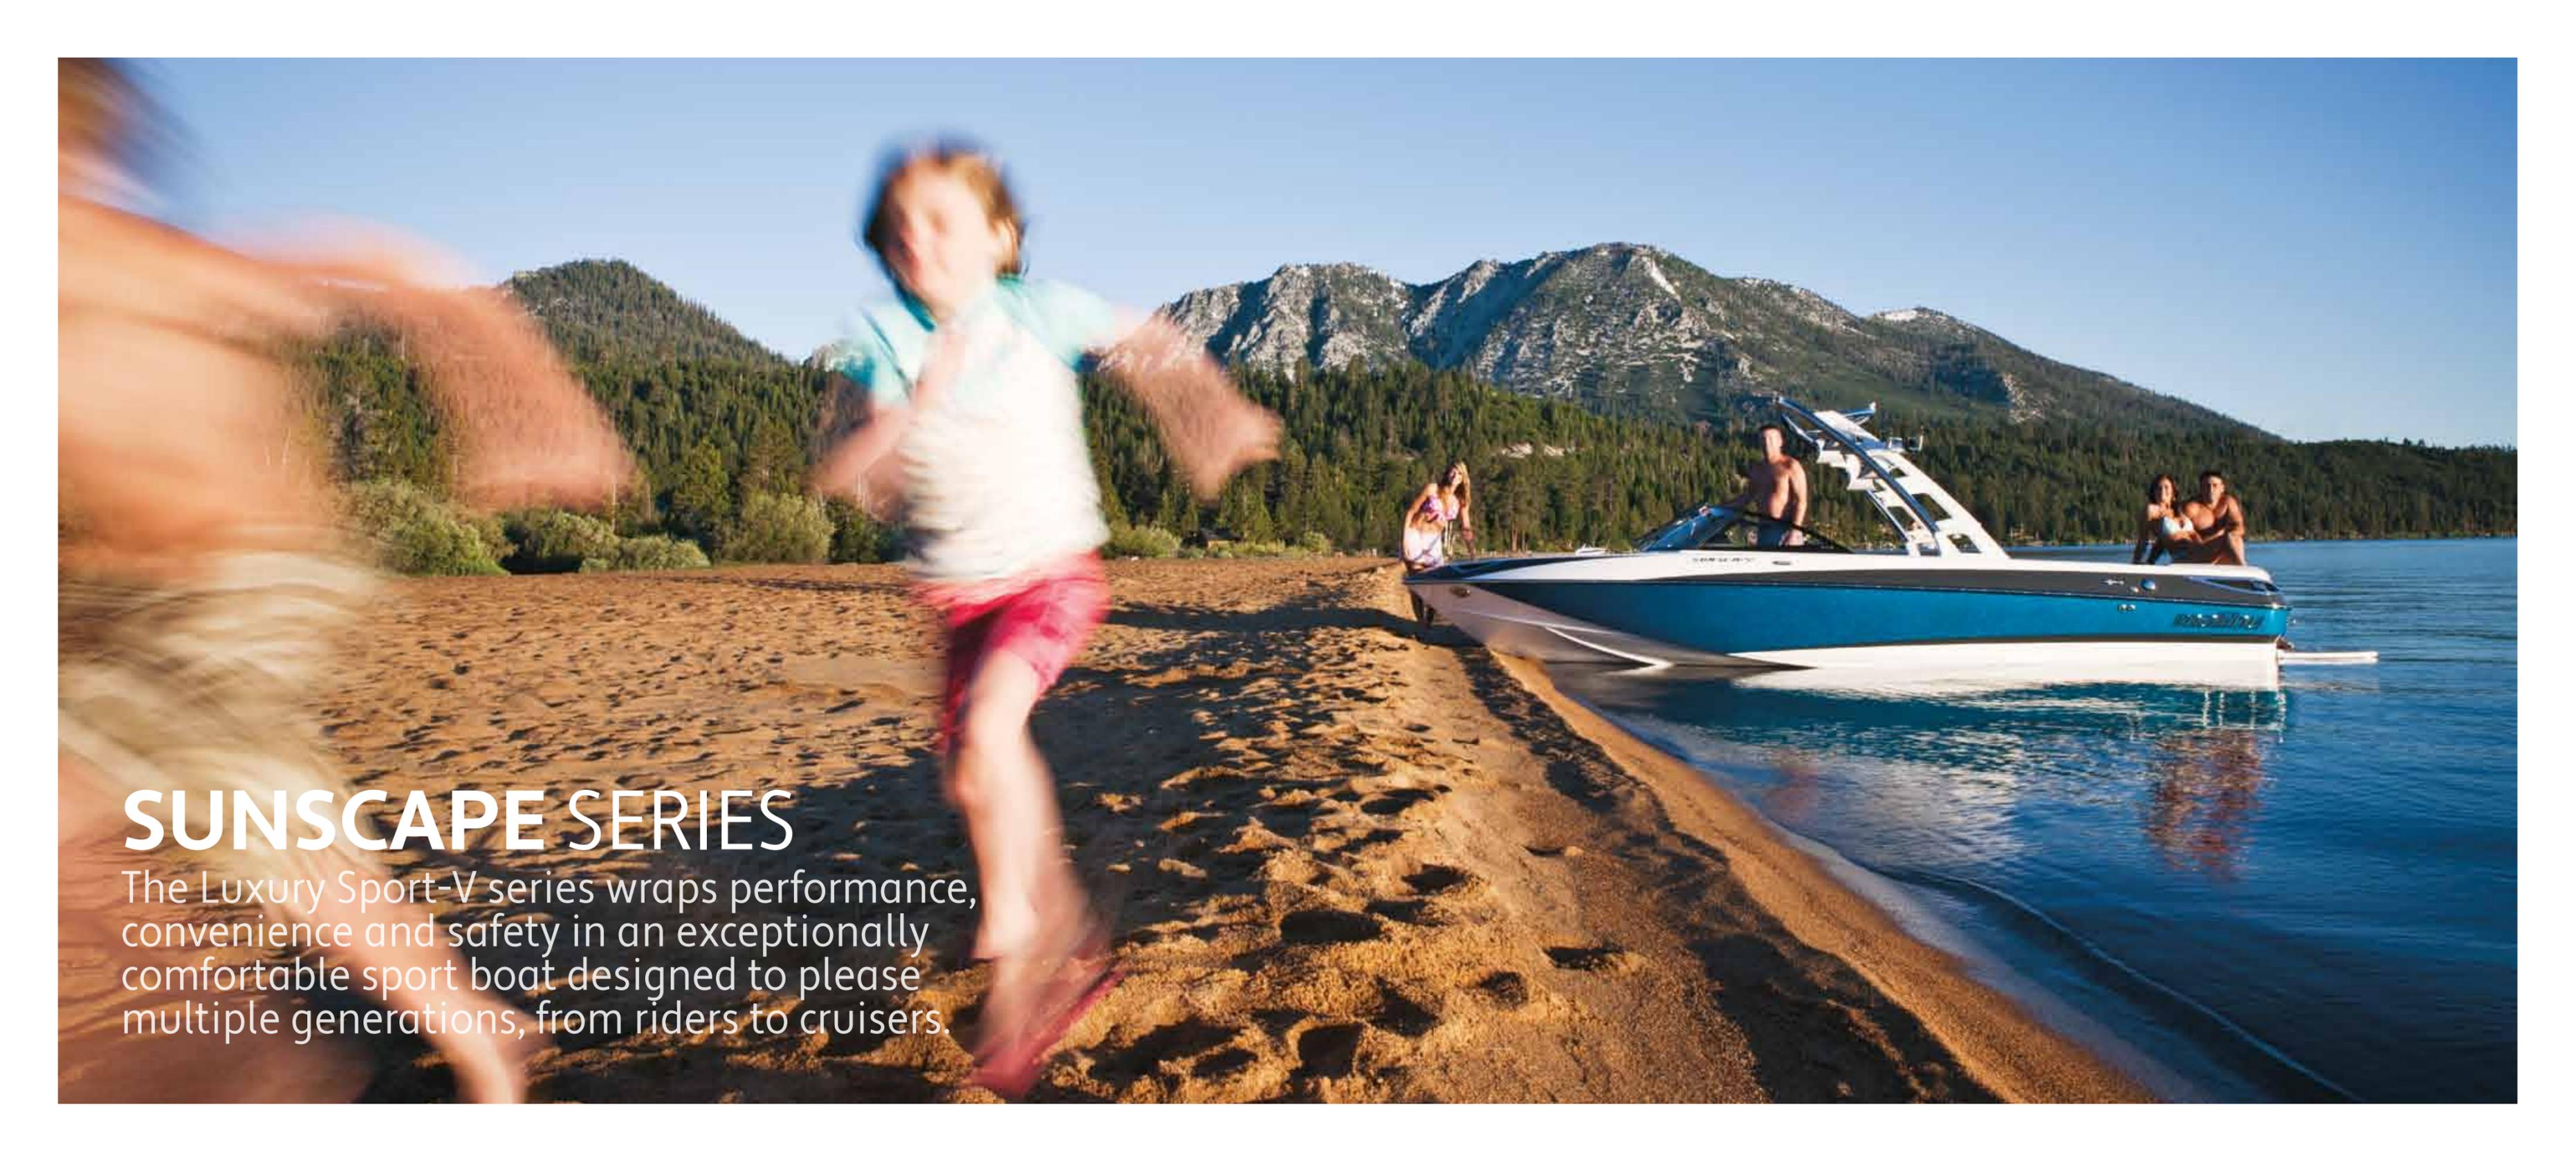

Our Pro Team is built as much on strength of character as strong finishes. This group of ambassadors truly believe in the Malibu Difference. Although they can't always compete behind a Malibu boat, it is their first choice. Malibu Open Champion Will Asher, World Champion Thomas Degaspero and 2-time World Slalom Record holder Regina Jaquess train behind the Malibu Response Series. Enough said.

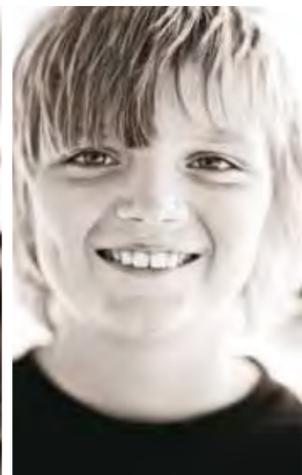

Same story, different sport. On the big wake side of the Malibu Boats Factory Pro Team Pro Tour Champion Phillip Soven, wakeboarder Chad Sharpe, wakeskater Brian Grubb, wakeboarding's best performing female rider Dallas Friday and Australian rider Sam Thomson all represent the Malibu Boats brand with the utmost integrity. They also happen to be some of the most talented big wake riders in the world.

A luxury blue and white speedboat is docked at a sandy beach. Several people are on board the boat. In the foreground, a young child in a light blue shirt and red shorts is running towards the camera, slightly out of focus. The background features a clear blue sky and a range of mountains with some snow patches. The water is a deep blue, and the beach is golden sand.

SUNSCAPE SERIES

The Luxury Sport-V series wraps performance, convenience and safety in an exceptionally comfortable sport boat designed to please multiple generations, from riders to cruisers.

SMALL BUT MIGHTY It's easy to keep your secret weapon under wraps when it's the Sunscape 20 LSV because this 20 foot beauty will fit neatly into your garage. The Sunscape 20 LSV combination of extreme luxury and commanding performance makes the average family boat look like last year's castoff. And with 130 square feet of lushly-appointed interior, and room for 11, this boat is well above average. From polished stainless steel details to multi-textured French-stitched upholstery, your passengers will feel pampered. Built on the Cut Diamond Hull, the 20 LSV offers a great rough water ride with extremely flat ski wakes. The carving chines, perfectly tuned underwater gear and rack and pinion steering also serve up exceptional handling at both slow and high speeds. Go ahead, let your secret out.

Length 20'/6.10m Beam 98"/2.49m Draft 22"/0.56m Capacity 11 persons Fuel 41 gal./155L Weight 3300lbs./1497k

AT YOUR BECK AND CALL The Sunscape 21 LSV is a tireless pleaser. Big enough to entertain the whole family and their best friends, the Sunscape 21 LSV will outlast even the diehards who want to push past sunset. With its straight-chine design, the 21 LSV is both extremely agile and fabulously comfortable in rough water. Dry land will be an unwanted distraction as you settle in to its hand-wrapped interior appointments. A sophisticated, yet aggressive sense of style emanates from the 21 LSV and drivers will love the hand-wrapped dash, Malibu Touch Command (MTC) with Keyless Start and the optional MaliView Dash System. The Sunscape 21 LSV offers maximum entertainment that invites you to stay all day.

Length 21.6'/6.55m Beam 100"/2.54m Draft 24"/0.61m Capacity 14 persons Fuel 41 gal./155L Weight 3500lbs./1588kg

JOB ONE—ENJOY YOURSELF You know we have the big things covered. But Malibu engineers also pay special attention to the smallest details – because in the end, the details define superior craftsmanship. After the exceptional handling, ride and interior comfort met our high bar for acceptability, we turned our attention to the little touches that make a big difference for you and your family. Colored Duraguard 38oz G&T Marine vinyls, stainless steel grab handles, an optional rear MUX switch bank, stainless steel cup holders and a built-in 60-quart ice chest with removable insulated bag. And if you really need to plug in, you have the option to stay connected with built-in mobile device power. Your job – go out and enjoy.

Length 23'/7.01m Beam 102"/2.59m Draft 27"/0.69m Capacity 15 persons Fuel 53 gal./201L Weight 3900lbs./1769k

REDEFINING BIG Of course the 24-foot, 7-inch Sunscape 247 LSV is a spacious boat. It's just hard to fathom how much room there actually is until you enjoy the cavernous lounge in person. This boat has 30% more interior room than any boat in its class, and you will notice that 30%. We have added seating and wet storage to the transom to let you keep it spacious, because you can put away the toys when you want to take a swim break. The size and luxurious appointments of the 247 set it apart from other boats in this class, but its performance and handling make it downright special. Whether it's just you and your significant other, or a full load of 17 people, the 247 makes the ride a pleasure.

Length 24.7/7.49m Beam 102"/2.59m Draft 27"/0.69m Capacity 17 persons Fuel 84 gal./318L Weight 4000lbs./1814k

SALTWATER PACKAGE

OCEANS UNLIMITED

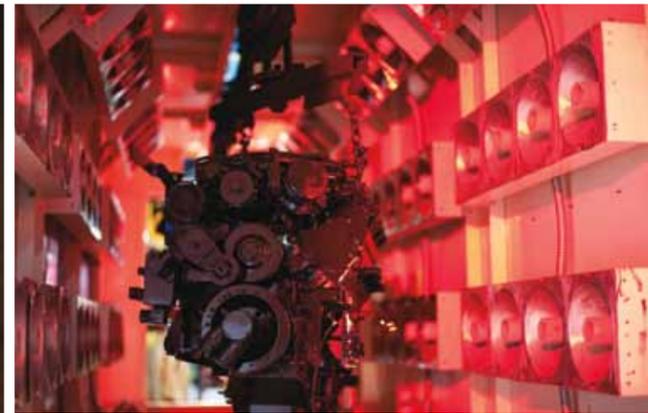

Malibu wants to insure you get the most out of your boat whatever body of water you cruise. That's why we've worked with Indmar to marinize our SRP engines for saltwater duty with a full, freshwater cooling system including the exhaust manifolds. All engine fasteners are stainless steel or SpectraMATE 25 coated with a 500-hour saltwater exposure rating. Our saltwater package is complete with corrosion-resistant components you simply won't find in a typical family runabout. From stainless steel components in every nook and corner, to sealed waterproof connectors on wiring harnesses to extra coating, we have you protected. We even offer extra optional saltwater resistant options, such as anodized board racks, lights and more.

PERFORMANCE PEAK PERFORMANCE

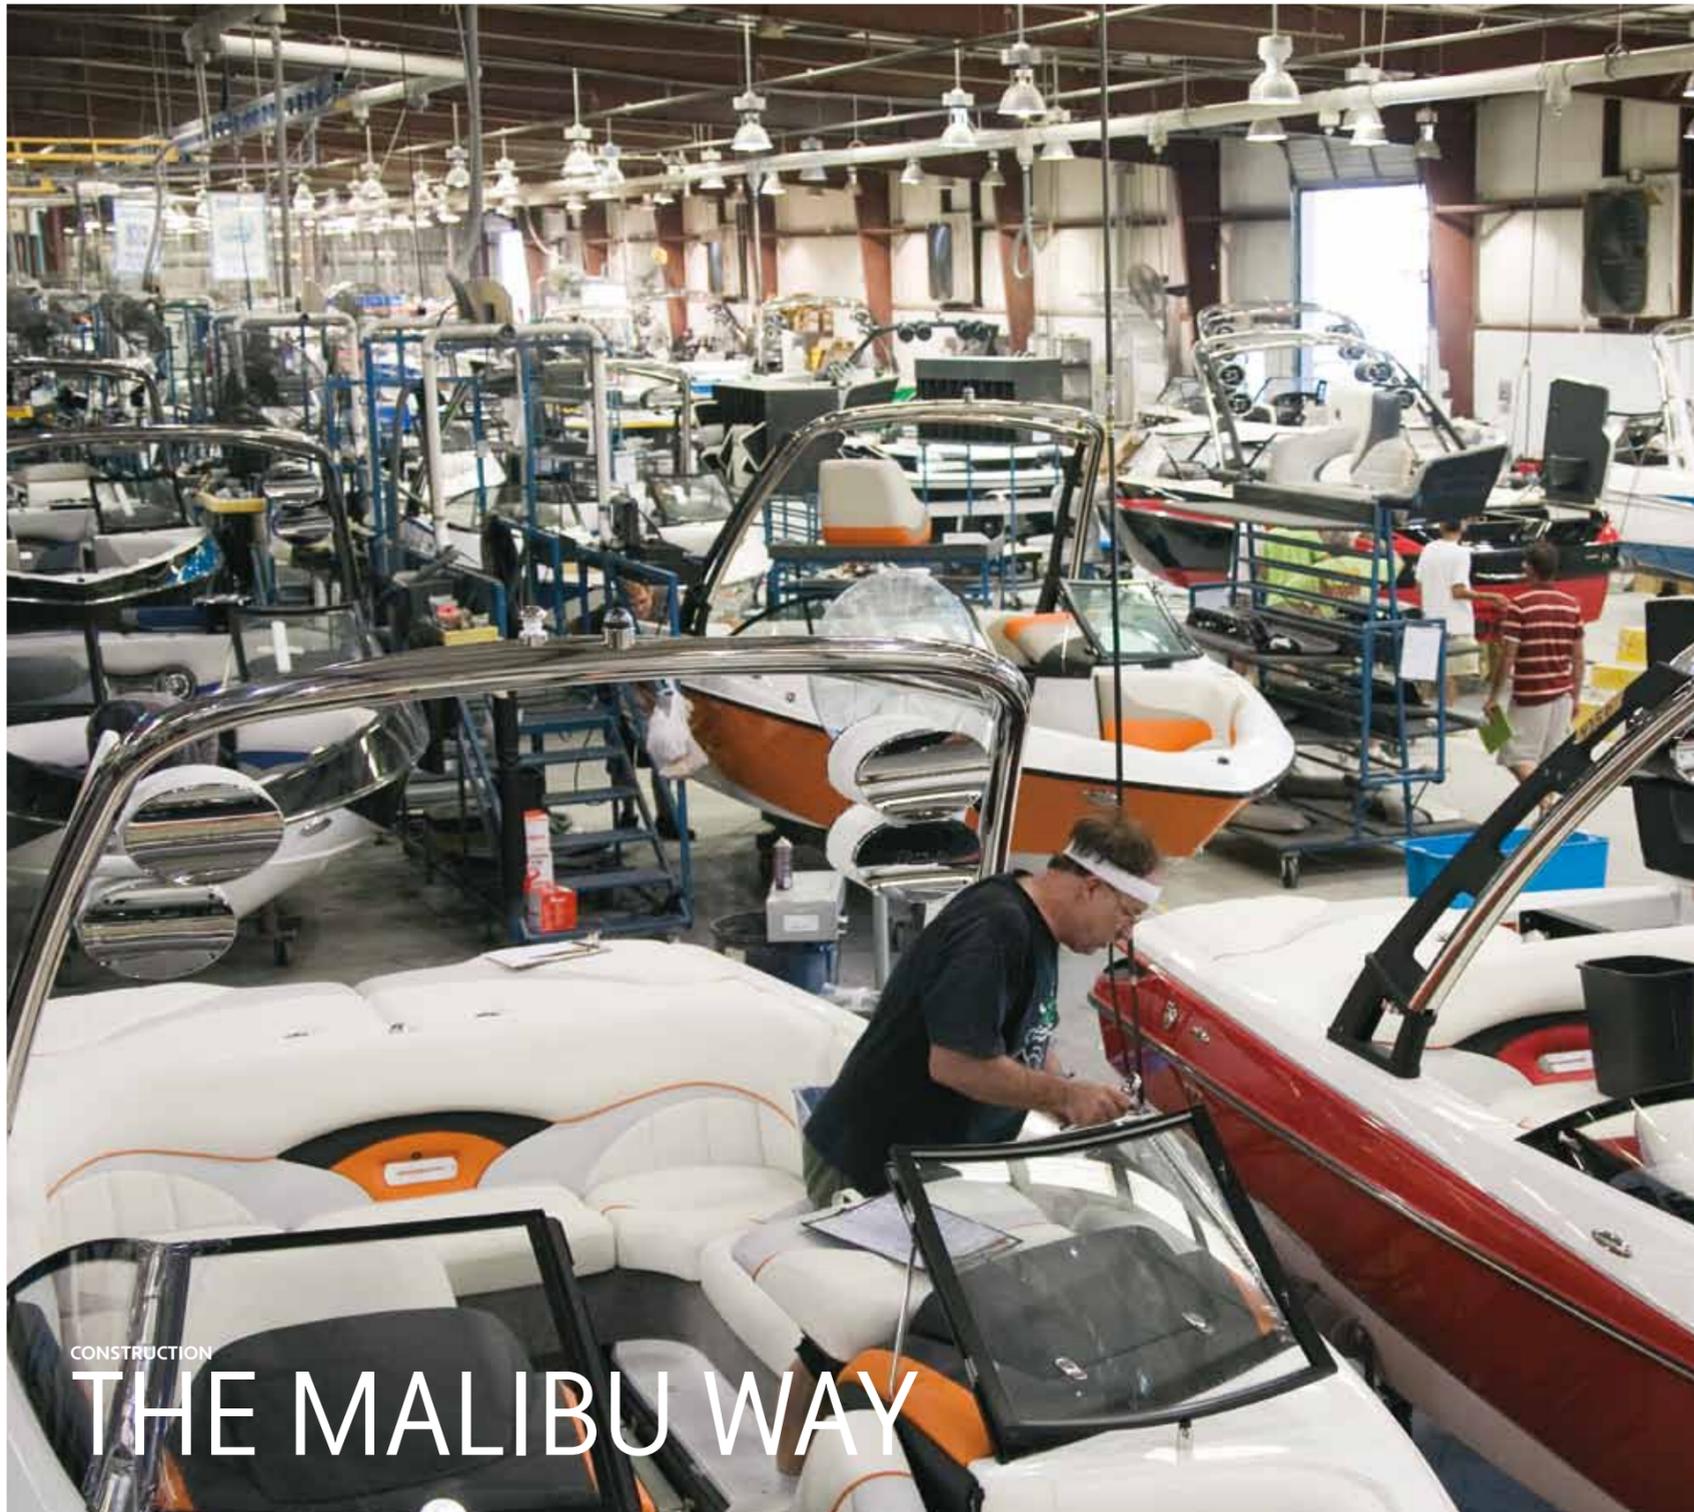

Malibu boats are optimized for peak performance on the water, across disciplines. With the right hull, our gorilla tracking fins, adjustable rudder and available wake tools like the Power Wedge and Shift by wire Throttle system, we can create the boat that meets your specific needs. Our engineers truly understand the differences required for slalom and wakeboarding and have created a hull that can accomplish soft wakes at slalom speeds and create big, punchy wakes at wakeboarding speeds. That's why we can provide you with exactly the right boat for your preferences. When you know what you want, it's Malibu that can deliver.

THE HEARTBEAT OF YOUR MALIBU START YOUR ENGINE

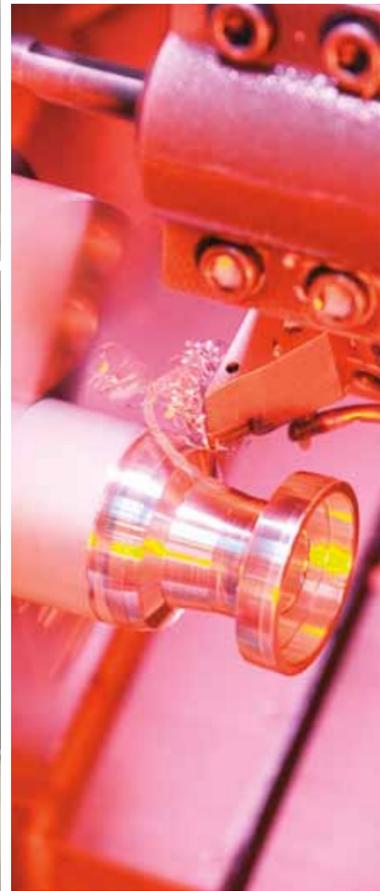

Just as our hull designs are optimized for peak performance, so are Malibu Boats' power offerings. Calibrated specifically for Malibu boats, our exclusive power options have made the difference in 17 world records and eight consecutive Boat of the Year awards. Our close working relationship with Indmar Marine Engines has enabled us to create the expectation of high-level performance, even from a standard engine offering in a Malibu Boat. Power plants are rigorously tested with each Malibu boat and hull design.

Malibu 330 LCR | Malibu Monsoon 350 | Malibu L96 6.0L | Supercharged LSA

Malibu has a finely-tuned construction process that is built on the highest quality materials and proven production practices. We don't build boats this way because it's easier or less expensive. We build boats this way because it is the right way. As a custom boat manufacturer, we take exceptional pride in building the best boat possible for you, our customer. From in-house fabrication and CNC signature parts, to our dedicated Mold maintenance, Malibu Boats takes the steps necessary to ensure you will have a flawless exterior finish, and the strongest foundation possible. We are sensitive to your needs and our proprietary Malibu Sound Suppression Technology (MSST) is laminated into almost every sport v-hull for whisper-quiet performance, while you ride in the comfort of plush 38 ounce G&T Duraguard marine vinyl. We through-bolt our engines with the Fiberglass Engine Chassis System (FibECS) for less vibration and quiet operation. Upon completion, every Malibu boat is subjected to a 46-point quality assurance test on the water.

TOWER PRODUCTION TOWERS OF STRENGTH

Malibu is the only water sports manufacturer that builds towers, affording us the ability to control costs and quality with in-house supervision of every step in the process. The Illusion G3 Gas Spring Assisted Wakeboard Tower, with its signature forward-swept design and industry-unique weightless fold-down, exemplifies Malibu's research and understanding of our customers' needs. In fact, it has been honored as the WakeWorld.com Rider's Choice Innovation of the Year. Standard with a pair of Titan spinning combo racks, you can personalize the Illusion G3 Tower with multiple options. For 2012, the Illusion G3 is available in white, yellow, red and blue with a host of accessories to match.

OWNERSHIP

SMILE YOU'RE IN A MALIBU

We gauge success by the level of satisfaction our boat owners enjoy. If customer service is key, we can open the gates. Every Malibu boat is covered by a transferrable, limited lifetime warranty that guarantees structural integrity. When you buy a Malibu you aren't just buying a boat - you are joining the Malibu family. We like our family, so we stay in touch. Learn all about owner benefits and find out what's new by contacting us directly through social media such as Twitter and Facebook, Flickr and YouTube, as well as our retail web site. We will even post your family boating images and stories on our sites if you like. Visit www.malibuboats.com to learn more about the owner experience.

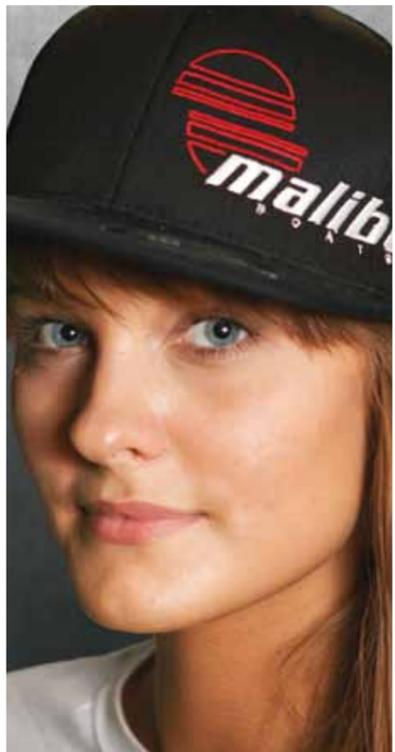

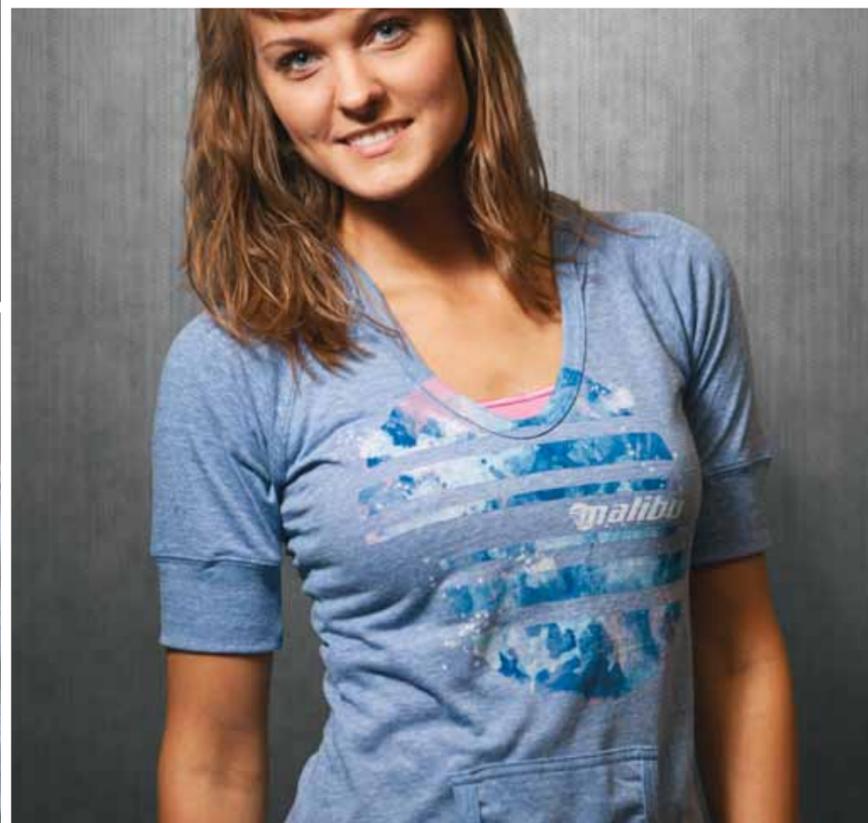

MALIBU CLOTHING

DECLARE YOUR LOYALTY

Sport Malibu Boats on and off the water with exclusive branded merchandise. Mixing the latest trends in active wear with Malibu Boats design has produced a spectacular line of Malibu clothing and accessories for 2012. Surf to <http://gear.malibuboats.com> and dress yourself in Malibu Boats.

[01] G3 Wet Sounds Alpha Tower Speakers: With Alpha style enclosures, optional 6 X 9 Wet Sounds tower speakers benefit from a cone woofer with polyurethane surround for phenomenal sound.

[02] G3 Tower Mirror: This CNC machined billet aluminum tower mirror includes a NASCAR-inspired quick release for removal and a swing-joint for easy tower fold-down. Offers the widest rear view in the industry.

[03] G3 Alpha Light: Malibu Titan Alpha Lights share the Alpha accessory look loaded with a 55-watt halogen light. Available in sets of 4 on the G3 tower.

[04] Rockford Fosgate® M2 12" Subwoofer: Designed for free air/infinite baffle applications. UV and moisture resistant.

[05] Flo-cam: This rear view rider camera system works with Malibu's swivel-head G3 tower pylon to follow the athlete in tow and adjusts to your water sport of choice. Footage is viewable live or recorded through the MaliView Dash System.

[06] Fiberglass Swim Step: Malibu fiberglass swim platforms have been designed with a slight rocker to protect wakeboard and ski fins and to eliminate maintenance associated with wood platforms. Standard on 2012 models.

[07] Rear MUX Switches: Passengers can control interior lighting, stereo, rider presets and more from the backseat. Available in most Sunscapes and Wakesetters.

[08] MaliView: Presents critical boat system information on a large 6.5" graphical color hard-coated anti-reflective screen. Cruise control, Rider Presets, Auto Pull Up (APU), depth, Power Wedge position, stereo controls and ballast levels as well as video, both saved and live, are just some of MaliView's features.

[09] Snap Out Carpet: Choose the versatility of our Wet Tek fiberglass floor with removable carpet or optional Aqua Fusion mat. Aqua Fusion (pictured) offers less water and heat retention as well as superior durability in salt water environments.

[10] Pull-up Cleat: Malibu-branded custom pull-up cleats are available for any Malibu boat to provide convenient tie-down locations.

[11] Illusion G3 Oversized Bimini: Shades an area nearly as big as an extended bimini.

[12] Swimstep Lights: Optional bright white lights can be mounted on the transom beneath the swimstep. Each of the two lights contain 9 LEDs rated at 1600 lumens.

[13] Ladder: Malibu's retractable swimstep ladder is a family-friendly option that makes the trip from the water to the swimstep effortless and safe.

[14] Stainless Glove Box Door: Our stainless steel glove box door is as beautiful as it is durable. Perfect for an extreme marine environment.

[15] G3 SRP Tower Accessories: Malibu offers a number of tower accessories for use in extreme saltwater environments, including salt-resistant board racks, speakers, lights and knobs.

[16] Optional Wrap-style Wakesetter Graphic: Gives your Malibu the custom look of a wrap with edgy artwork that extends above the rubrail and across a large portion of the hull. Available on most Wakesetter and Sunscape models.

[17] Docking Lights: Optional docking lights feature 18 bright white LEDs to emit an "X" shaped beam of light. Expands the visible area and consumes much less power than a traditional halogen light.

[18] Illusion G3 Gas Spring Assisted Tower: solid foundation of billet aluminum bases and billet tower support wings back the 3" stainless steel hoop; with weightless fold down. Comes with a pair of Titan Malibu Spinner Racks with combo wakeboard and surf forks.

[19] Colored Illusion G3: Now available in white, regal, dark blue and yellow. Malibu Titan Tower accessories like lights, speakers and mirrors can also be colored to match.

[20] Driver's Seat Heater: Keep the driver warm and comfortable. Available on all models.

[21] Rockford Fosgate® M2 Full-Range Speakers: Found only in a Malibu. Perfect for anyone looking to add some PUNCH to their boat. UV and moisture resistant to assure great performance in harsh marine environments. Available in an 8" size in the 247 LSV.

[22] Carpet Saver: Maintain the beauty of your boat's carpeting by installing a Malibu Carpet Saver custom fit for each Malibu Boat.

[23] G3 Titan Malibu Spinner Racks: Built to accept wake and surf boards, these racks swivel for easy access and quickly slide off their tower mounts for storage.

[24] Patented Power Wedge: With a stainless steel reverse hydrofoil design, the Power Wedge generates 400 to 1200 pounds of displacement and changes the shape of the wake along with the size.

[25] G3 Titan Malibu Ski Rack: Accommodates two slalom skis with easy-access bungeed forks to free up storage areas onboard.

[26] Optional tower knobs make the Illusion G3 weightless tower collapse even faster and easier.

[27] Wakesetter Snap Out Carpet: Available for any 2012 Wakesetter with a Wet Tek Fiberglass Floor. This new carpet option sports a "WS" inlay to add to the wakeboarding theme of your boat.

[28] STE Exhaust Tips: STE Exhaust Tips are built with specially designed baffles to reduce engine noise without any degradation in performance.

[29] Rockford Fosgate® Amps: The power behind Malibu Boats sound is Rockford Fosgate. Available 400 and 500-watt RF amps supply the clean reliable PUNCH that you want for a day on the water.

[30] Malibu-Rockford Fosgate Sound System: Exclusive to Malibu Boats, this "Black Box" system includes a 4gig pocket drive. This system also offers 45 x 4 watts of power, an AM/ FM tuner, a touch screen style display, iPod/iPhone control, an MP3 auxiliary input and Sirius compatibility.

[31] Sport Seating: Swiveling captain's chair on the observer's side offers the option of facing forward or back. Optional seat comes with a flip-up bolster and automotive-style lumbar. Available in most Wakesetter and Sunscape models.

[32] G3 Alpha II Tower Speakers: Designed for a custom look and superior sound. Load your G3 tower with as many as four 6 X 9s.

[33] Oversized Stainless Steel Cup Holders: Built to withstand the rigors of marine use and easy to keep clean.

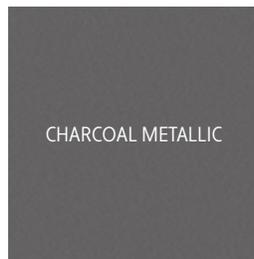

[34] The Wedge: Exclusive hydrofoil technology turns any Malibu boat into a wakeboarding machine. Offers 1000 pounds of displacement, effortless operation, superior handling and stainless steel construction.

THANK YOU

Building a brochure is like building relationships. The initial idea or meeting is easy, it is the team work and follow-through that brings the project to life. We would not have this beautiful book without the contribution of the following organizations and individuals. Tom King Photography, Goff Photography, Paul Singer & Proof Creative, Regent Publishing Services, Ltd., Nancy Crowell, Lani Farmer, Amy Mauzy, Adam Perez, Patty Jones Tahoe Keys Marina, Lake Don Pedro Recreation, Chad Borba & Eto Marine, Trever Maur, Christine Sobolik, Summer Thomas, Amber Winfrey, Brian Grubb, Phillip Soven, Dallas Friday, Sam Thomson, Lemcke Family, the Gibbs Family, the Crysdale Family, the Morrison Family, the Grise Family and the great men and women of the Tennessee and California plants.
